STARTS FIGHT ON PASSES
FOR RAILWAY COMMISSION.
General Manager of Eureka-Nevada Line Petitions
Court in San Francisco for Perpetual Injunction Ask
ing that Santa Fe be Made a Party—Declares Pro
vision of California Law is Unconstitutional.

[BY A. P. NIGHT WIRE]
SAN FRANCISCO, Nov. 27.—Mem
bers of the State Railroad Com
mission and that body's numerous
employees will be forced to pay full
tariff for transportation soon, if an
injunction suit which was filed here
today in the Superior Court is suc
cessful.
J. E. Sexton, general manager of
the Eureka-Nevada Railroad, who
filed the suit, petitioned the court for
perpetual injunction restraining the
commission from issuing such free
transportation and also asked for
injunction restraining the commis
sion from enforcing certain penalizing
provisions of the public utilities act
in the event that the railroads do re
fuse to issue such passes.
The Atchison, Topeka and Santa Fe
Railroad Company was named as
co-defendant with the railroad com
missioners. Sexton sued as a stock
holder of the railroad company and
based his suit on allegations that the
issuance of such passes deprives the
stockholders of rightful profits. He
declared in his petition that since
1911 the Atchison, Topeka and Santa
Fe had issued \$5000 of passes to
members of the commission and their
employees.
Sexton pointed out in the complaint
that, in addition to railroad matters,
the commission's official duties also
included the supervision and regula
tion of telephone, telegraph, gas, elec
tric and water companies, and de
clared that the section of the public
utilities act which compels railroads
to furnish free transportation to com
missioners and their employees was
unconstitutional in that it violated
section 14 of the Constitution of the
United States by depriving the rail
roads of property without due process
of law, and also that it denied the
companies equal protection of the
laws.
The complaint further stated that

sections 76 and 77 of the public util
ities act, which provide penalties for
the refusal by railroad companies to
grant such free passes, were so dra
stic that the railroads dared not refuse
unless supported by a court order.

PALMANT VALLEY LAND

is a "Money Maker"

Everyone likes THIS COLD CURE

"Pape's Cold Compound" ends a cold or gripe in a few hours.

Read S.H. Thompson's Letter.

Western Securities Co., 711 Hollingsworth Bldg., Los Angeles.

Gentlemen: I have 120 acres of land in Palmant Valley which I believe to be one of the finest farming sections in the West. I have 35 acres in alfalfa and I intend to plant about 40 acres more. I want to say that this is one of the best money-making sections on the map. It is a wonderfully productive alfalfa country and I positively believe it is the best sugar beet section in the United States.

I was in Southern California 10 years and I certainly was prepared to appreciate low-priced land and water. I have raised the finest type of vegetables of all kinds up here. The soil is deep, rich and productive. The alfalfa hay grown here is far superior to that raised anywhere in the Southwest. I would like to see many dissatisfied Californians come up here, where there are real opportunities to make good. In closing, I want to say that I raised 20 tons of sugar beets to the acre, with very little care and attention.

(Signed) S. H. THOMPSON.

State of Utah, County of Millard—ss. Subscribed and sworn to before me this 19th day of December, 1914. A. M. McPHERSON, Notary Public. My commission expires Nov. 9, 1918.

Palmant Valley is on the main line of the Salt Lake Road in Southwestern Utah—under \$1,000,000 irrigation system. Estimated cost of maintenance from 40c to 50c per acre per year.

\$70 Per Acre for Land and Perpetual (Gravity) Water Right. \$25 An Acre Down. Balance in 10 Years.

The Palmant Valley farmer owns his own water right for all time to come. When this right is paid for he has free water forever—with an unusually small maintenance cost. Palmant Valley is No. 1 alfalfa country; one of the best alfalfa seed districts in the West; an exceptional dairymen's country; one of the best and most profitable hog-raising sections in the West; a remarkable grain country; record-breaking sugar beet land. Palmant Valley is settled by practical farmers from nearly all of the Western States. One crop of sugar beets alone has netted Palmant Valley farmers the entire cost of the acreage on which it was planted. The climate of Palmant Valley is conducive to health and longevity. If you seek the best land opportunity in the U. S. A., go to Palmant Valley now. Write for our illustrated booklet. Special excursions at low homeseekers' rates from Los Angeles.

WILL REGULATE STEAMER RATES

Wilson has Plan to Submit to Next Congress.

Proposes a Shipping Board to Apply New Law.

Ocean Tariff Question Has Been Investigated.

WASHINGTON, Nov. 27.—President Wilson is expected to submit to Congress in connection with the new ship purchase bill that he has vetoed in the proposed bill to regulate the rates of all steamship lines which come from American ports to the same way as the rates of the railroads now are regulated by the Interstate Commerce Commission.

Plans for the new legislation consist of the shipping board, the Secretary of the Commerce and the shipping commissioners. The shipping power to be asked to regulate the rates of foreign steamships which originate in foreign countries, but are destined to the United States, and the President are confident that such legislation would be successful.

The Interstate Commerce Commission has been investigating freight rates for several weeks. The suggestion of the President is understood to be that the board will be given the information which will be needed to fight over the shipping measure.

Some of this information is said to reveal close relations between carriers in the United States trans-Atlantic steamship lines, particularly in matters concerning through freight shipments to various points to foreign ports. It is granted to the shipping companies to prescribe reasonable rates of freight for their own steamship traffic. It is proposed to give the power to fix rates in conjunction with the Interstate Commerce Commission, joint action from the interior to other countries.

hands of the international jury of awards at the exposition. No fewer than fifty-five awards, forty-five of them of the highest class, have been made to the State exhibit in the Palace of Mines.

The list of prizes won, as announced today by Commissioner-General W. D. Egbert, includes one grand prize, forty-four medals of honor, four gold medals, five silver medals and one bronze medal. The high quality of the California exhibit, said Mr. Egbert, is made evident by this unusual proportion of medals of honor.

The grand prize went to the Kern County Protective Association for its remarkable peg model of the Sunset-Midway oil field, characterized by the jury as "a model of great technical, educational and industrial value."

This model, which represents a year's work by the association's engineers and thousands of well-drillers' logs, was constructed to serve as a complete underground map of the field. It shows every well in the field with all the formations passed through and exhibits particularly the relations between the oil and water sands. By reference to it engineers can tell at a glance the water conditions of any well or any portion of the district.

Each one of the fourteen counties participating in the exhibit in the Palace of Mines was awarded a medal of honor. The list of the counties is as follows:

Alameda county: Marble, limestone, magnesia, quartz, glass sand, kaolin, clay and borax.

Imperial county: Pumice stone.

Kern county: Petroleum, building stone, marble, limestone, gypsum, diatomaceous earth, gold, silver, chrome, iron and manganese.

Los Angeles county: Building stone, brick, diatomaceous earth, salt and salines.

Monterey county: Salt, natural and refined, and asphalt.

Riverside county: Marble, limestone, quartz, glass sand, rare minerals and gem products, copper, manganese, tin, lead, chrome and iron.

San Bernardino county: Building stone, limestone, gypsum, fluorapatite, copper, gold, silver, lead, chrome, iron, tungsten, sulphur, salines and marble.

San Diego county: Gems and building stone.

Santa Barbara county: Petroleum and diatomaceous earth.

Santa Clara county: Comprehensive exhibit of quicksilver ore, marble and mineral products.

Shasta county: Gold, silver, iron, also pig iron smelted by electric process, lead, zinc, manganese, marble, limestone, gypsum, silicic acid and asbestos.

Siskiyou county: Placer and quartz gold, copper, lead, building stone, mica, tourmaline and mineral waters.

Solano county: Building stone and cement.

Ventura county: Marble, limestone and gypsum.

A medal of honor went to the California State Mining Bureau for its collective exhibit of the mineral resources of the State. A second medal of honor was given to the mining bureau in conjunction with the California State exhibit, a collection of crystallized and wire gold, leaf gold, nuggets, free gold in quartz, with associated minerals and high-grade gold ore.

TWELVE MEN ENTOMBED.

POTTSVILLE (Pa.), Nov. 27.—Twelve men were entombed in a colliery of the Lehigh Valley Company today, when an explosion of gas set the mine on fire. Nine were rescued alive, but there is no hope for the other three. They are foreigners.

of the war, so they were forced into the hearts of the people nearly everywhere.

Speaking on "France and America," W. B. Bourne of San Francisco, president of the Spring Valley Water Company, asked "Is America neutral?" Immediately there were hundreds of "Noes" from all parts of the assemblage. "Feel the heart of America and you will know the people are not neutral," said Mr. Bourne. "Feel the pulse of the people as a whole and you will know America cannot be neutral."

Two trees, one for France and the other for Belgium, were planted in front of the French pavilion, where they are to remain, after the exposition is ended, a part of the Federal grove.

Announcement was made that a library of nearly 700 volumes which had been on exhibition in the French pavilion had been presented to "The Friends of France," a newly-organized society, and in turn was donated to the University of California. The acceptance was by Prof. Charles Mills Gayley of the university.

Responses for France after presentation of a case of jewels from the Tower of Jewels was by Albert Tirmann, commissioner-general from France to the exposition. Commissioner-General Francis Dixon spoke for the Kingdom of Belgium.

Vahman Cardashian, Turkish commissioner-general to the exposition, was one of the guests who occupied a seat on the speakers' platform.

SITUATION IN GREECE IS AGAIN DISQUETING.

ATHENS, Nov. 27.—The Greek situation is again disquieting. The Athens correspondent of the Telegram Company says with reference to the new note of the Greek ministers that optimism has been way to skepticism.

An Athens dispatch to Lloyd's News that the note demanded a reply at the earliest possible moment. The interview of Premier Skouloudis with the King lasted an hour, after which the Cabinet Council discussed the various questions at issue for several hours and held that only several of the points formulated are acceptable to Greece.

The situation, the dispatch adds, is regarded as grave.

REVOLUTIONIZE POWER WORLD.

TRANSFORMER AT EXPOSITION A REVELATION.

Wonderful New Phenomena Has Been Discovered in Relation to New Apparatus Which May Make Possible Operation of Transcontinental Electric Railroads.

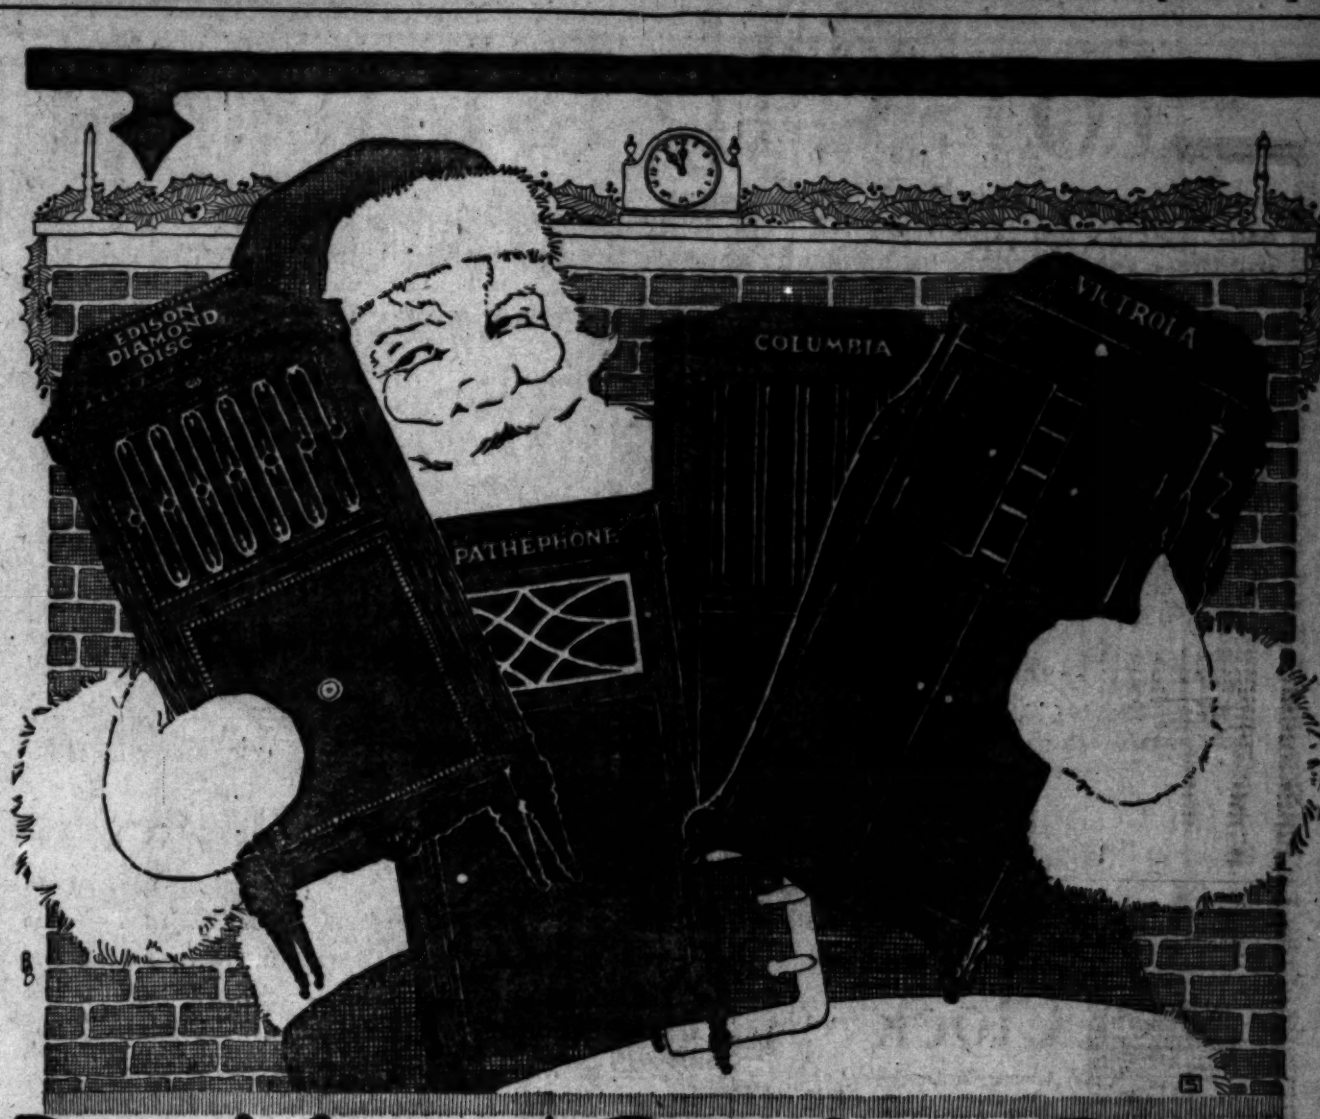

(SPECIAL CORRESPONDENCE.)

EXPOSITION GROUNDS, SAN FRANCISCO, Nov. 26.—Of the many wonderful scientific achievements first brought to light at the Panama-Pacific International Exposition none has been of more moment to the power world than the 1,000,000 volt transformer installed upon the exposition grounds.

Back of the Palace of Machinery in a building 100 feet, repose in a bed of oil this sixty-cycle million-volt transformer, the largest ever conceived. The building is put together without a nail and the bolts are put in horizontally so that there is no danger of contact. The transformer itself is made of 24,000 pieces of paper, fiber, aluminum, copper, steel and iron and is designed to develop 1000 kilowatt for twenty-four hours. The low tension coils are wound to receive 2200 volts and are made up of 12 coils arranged in multiple series, the coils being bridged in pairs across the 2200 volt terminals. This allows for neutral tap, which is grounded to the transformer frame. The paper tubes which insulated the primary and secondary coils weigh over 2000 pounds. The million volt circuit is made up of 190 coils, each coil being 5000 volts, equally spaced and wound with flat aluminum, eight mill, one ampere conductor insulated by three layers with one end grounded.

MATERIALS EMPLOYED.

There are 400 miles of paper, aluminum, and copper used in the construction of the coils and paper tube, nine miles of aluminum and 970 miles

of paper being used in winding the million-volt coil.

Outside the high tension building into which no one is allowed to enter on account of the excessive danger there is a demonstration going on daily for the benefit of the public, where the possibilities and effects of this achievement may be sensed.

The electrical engineers in charge of these tests have found some wonderful new phenomena. These discoveries are from effects of electrostatic charge upon the atmosphere below the large fifty-foot square wire screen which is strung about thirty feet from the ground. This screen is located in an open space adjacent to the transformer house. The experiments with helium gas and vacuum tubes have shown wonderful results in detecting negative and positive static waves of the impressed sixty-cycle current. Secondary screens or sheets of metal are highly charged from the wire screen above and electric sparks jump from these small screens to any person who comes as close as six inches of the metal.

A number of scientific men (physicians and surgeons) have suggested a like apparatus in connection with sanatoriums, as they have found that the effects on these electrostatic screens will cure nervous trouble and other diseases of the mind. Those who have been constantly experimenting with the effects of this electrostatic field have found wonderful effects on the growth of hair on bald spots. While standing within the space under the wire screens the charge is so powerful that one feels as if one were walking in water, the hair standing on end and the hairpins in women's hair flash sparks an inch long.

The exposition has arranged ample protection for the large number of persons interested in the demonstration. Platforms and steps have been erected and the curious crowds have found the higher the they ascended the higher became the potential charge upon their bodies, and sparks have passed to people on lower levels and to those upon the ground, each acting as a link in a chain between the 1,000,000 volt terminal and the earth. The sound of the generator that generates the power in the High Sierras may be distinctly reproduced when holding the hat above the head and hands placed at certain angles in the pockets.

This transformer is expected in time to revolutionize the power and railway world. With a voltage of 500,000, this transformer can project 500,000 horsepower a distance of 2000 miles. This will make possible the transcontinental electric railway. It will also send power and light in sufficient quantities over such long distances that every secluded and sequestered place no matter how high in the mountains or how far out in the desert may have electric lights and power.

DEFENSE PLAN IS INDORSED.

On Security League for Wilson Programme.

Believe President Should Go Further.

Attention Called to Lack of Trained Officers.

ST. P. MONT WIRE.

CAGO, Nov. 27.—The proposed programme of President Wilson's Cabinet was indorsed as the right direction in military preparation on the army, navy and air.

On each aspect of the programme, the committee has found that the administration had made a desire to go far enough to make the country safe from attack.

proposed army increase, it pointed out, should be limited to provide for adequate education of officers and collection of large reserve supplies of all kinds.

any plan was criticized as being over too long a period of time and as making no provision for adequate personnel on the building and proposed.

"CONTINENTAL ARMY." project for a "continental army" was indorsed merely as a "study" and the suggestion was made that all men between the ages of 17 and 30 should be enrolled and given military education.

regulate were present from the half a hundred cities where the defence opened, the representatives of the league including lawyers, former Governors, newspaper executives, educators, business and editors.

the opening session a committee was discussed which expressed belief that the national defence programme for army might be "made the basis of a future development if the work was worked out so as to give the recommendations of the committee." On this basis the scheme was approved by the committee.

The committee report was by Congress the basis of organization of a national defense.

committee said it had been made that with adequate permanent expenditures for personnel and equipment, the army could be reduced by \$10,000,000.

the deaths of veterans and the cost of this amount could be added on public defense when the use of taxes.

FROM THE REPORT.

a main report was in part as follows: The league believes that the weakness in the proposed programme of our naval establishment is in the personnel.

to provide for an adequate staff in the personnel.

figures were then quoted showing that the navy is short of \$5,000 and \$5,000 men of the required to man the fleet.

build or building, and that because of the lack of manning present fleet of eleven destroyers were not available in the war.

October. Another statement was made that the fleet of four battleships of the fleet would have to be placed in the next winter to get over a new superdreadnaught fleet.

Oklahoma.

to correct a popular impression it must be made clear that the shortage of men is not due to a lack of recruiting.

"The sole trouble here is that Congress has limited the number of men to \$1,500."

was added that the proposed recommendation of the committee was to increase the number of men to at least 1,500,000.

proposed increase of 1,500,000 men was criticized on the ground that the first-year building programme alone requires 475 additional men.

the committee endorsed the programme, "so far as it is recommended by the committee," and that since the committee had no objection to the proposed programme, it was recommended that the committee should be authorized to proceed with the programme.

the committee expressed the hope that the programme would be a "report of the committee" and be submitted to Congress in connection with any plan for the improvement of the navy.

What Is Your Boy Thinking About?

What your boy thinks about now has everything to do with what kind of man he will grow to be. He grows as he thinks. His imagination is recruited from what he hears, and sees, and reads. If his hungry mind is well fed, and properly, he will grow into the right kind of a man.

You should guard his reading as carefully as his health. Clean reading develops the kind of imagination that gives him a wholesome outlook on life, broader visions and higher aspirations. If you neglect to provide him with mind-food, he will pick it up where he can. Mongrel literature develops a "scavenger" imagination.

Here is a monthly library of good, clean, censored reading—not the "sissy" kind, but the kind that will win the heart of any regular boy. At the same time he reads it he educates his mind to think far and big and straight.

The American Boy magazine is made for boys alone. They are entitled to a publication of their own just as you are entitled to your favorite newspaper or magazine—and they need it.

THE AMERICAN BOY

This magazine is like a big, wise, sympathetic and understanding brother to a boy. It cultivates and regulates his imagination. It inspires courage and fairness. It teaches him the rudiments of business. It shapes his character. It instills manly ideals. It holds his interest and will wean him away from the desire to read trashy stuff. It develops self-management, self-reliance and resourcefulness. It helps prepare him for the time when he strikes out for himself. *It appeals to his sense rather than to his sentiments and it is not dull or preachy or wishy-washy.*

The American Boy is the RIGHT kind of magazine for the red-blooded boy who plays ball, loves nature, likes to make things. It's just a true-blue boy magazine conducted by men who know your boy and what he likes.

Everything under the sun that interests and inspires, that amazes and amuses a real boy is in The American Boy in the course of a year. There's the fourth of the series about "Mark Tidd," the favorite boy character; Indian stories by a member of the Blackfoot tribe; pirate and adventure stories; athletic stories after a boy's own heart; a month-to-month review of the war by an authority; adventures of the Canadian Mounted Police; stories of business life and practice; stories of outdoor life, camping, fishing and hunting; articles on successful business boys of today; articles telling boys how to make money; articles on gardening, poultry, on construction of toys and articles of utility; biographies; articles on science and history; departments devoted to electricity, photography, stamp collecting, invention, carpentry, natural wonders and so on, covering the whole range of boyish interests and activities. Every number has a profusion of photographs and illustrations of the kind that grip a boy. In fact, The American Boy is just the best pal any boy ever had!

Give your boy his chance. He wants to do things, but doesn't know how. Give him twelve big, happy, inspiring numbers of The American Boy, the right kind of magazine that makes the right kind of boy into the right kind of man.

If you haven't a son, you can send it to the boy of some relative or friend—or why not help that cheery little fellow who opens your office door every morning to become a big, successful man.

Christmas is coming; make some boy happy. It costs only a dollar—one dollar, little in amount, but big in results. Just pin a dollar bill to the coupon and mail at our risk.

That coupon will bring the biggest measure of Christmas joy a boy ever had!

Safety First

Safe and certain results obtained by the use of An-uric in combating kidney trouble, rheumatism, dizziness and uric acid symptoms.

An-uric is a safe, harmless remedy made by Dr. Pierce of The World's Dispensary Medical Association of Buffalo, N. Y. Dr. Pierce has made reliable family medicine for over forty years.

When you buy An-uric you are safe for it is not an experiment or a compound of harmful drugs, but a prescription by an experienced physician, who for years has devoted himself to the cause. Study and science produced An-uric, a perfect, harmless but potent solvent of uric acid. Many times more efficient than Lithia.

Obstinate cases of kidney trouble, backache and rheumatism yield to no remedy but An-uric. It has made hundreds of men and women firm endowments of it, for it does just what it is claimed to do—stops rheumatic pains, dizziness, lame backs and kidney trouble by driving uric acid out of your system.

Dr. Pierce's personal representative in Los Angeles, having headquarters at The Sun Drug Co. Store (the green front store) N.E. corner of Broadway and Fifth st. He daily meets the public and will aid you to return to health by explaining the use of An-uric to destroy uric acid.

Mail orders for Dr. Pierce's medicine—An-uric, "Golden Medical Discovery," Favorite Prescription, and others receive prompt attention.

Matheson Positively Retires

FROM THE MENS CLOTHING FURNISHINGS AND HAT BUSINESS

After January 1, 1916, the name MATHESON and all that it has stood for in the Southwest for the past two generations will be connected only with the highest quality of Women's Wearing Apparel.

We are POSITIVELY RETIRING from the Men's Clothing, Furnishings and Hat Business and must quickly dispose of one of the largest stocks of fine merchandise that we have ever carried. To do this quickly we have marked every price so low that it will compel the interest of everyone who can appreciate quality at such a low price.

Throughout our Women's Department we have likewise reduced every price, as a complete reorganization of our entire store after January 1 will be necessary, and it is much cheaper and easier for us to dispose of the bulk of this stock for just what it will bring than to attempt to carry it over into the new year.

Those who have traded at this store and know the reputation of this old established house for so many years will appreciate that a sale of this magnitude, backed by the splendid reputation that we enjoy with the buyers of fine wearing apparel means unquestionably the greatest value-giving event ever announced.

Plan to attend this sale early Monday or Tuesday and take advantage of these bargains. You will save money at these low prices.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD

County Pioneer's Meeting.

The Los Angeles Pioneer, sons and daughters will meet next Wednesday night in the Times assembly-rooms. Edward Nittinger will be chairman. There will be music, dancing and refreshments.

Albert Tessler, boy organist and composer, will play a concert daily at the Chamber of Commerce, beginning tomorrow. His programme will start at 4 o'clock. There will be no concert Saturday as the chamber closes an hour earlier on Saturday afternoons.

Westerners to Burbank. The Westerners will go on a ride and outing to Burbank today, visiting Town Constable Purrier. Members will assemble at Echo Park at 9:30 a.m., taking a trolley. Stops will be made at the studios of Griffith Park and Cactus Canyon, arriving at Burbank at 1 p.m.

Maj. A. J. Copp, Jr., member of the Board of Education, will speak before the Social Study Club at Brownson House next Wednesday evening on the subject of "Boys' Work." Ernest J. Lockley, supervisor of compulsory education and evening schools, will also discuss this subject.

Forgotten to Lock It Up. When R. L. Perkins of No. 2501 Mineral avenue, started to look about his office, 528 Story Building, yesterday afternoon in the endeavor to locate a quantity of silverware his wife had entrusted him with several days ago, he was unable to find even a teaspoon. Then he remembered he had forgotten to lock the silver in the office safe, as instructed.

Anti-tuberculosis Campaign. Societies interested in the prevention of the spread of tuberculosis are to carry on a special campaign of education as to preventive measures during the week from December 12 to 19, and application has been made to the Board of Education for permission to have teachers in various city schools on this subject.

Handwritten Anniversary. Various Catholic churches of this diocese will observe on next Friday the one-hundredth anniversary of the death of Most Rev. John Carroll, first bishop of the American hierarchy. He was the almost unanimous selection of the priests in charge of American missions and was appointed an American bishop in March, 1789, by Pope Pius VI.

Unusual Case. A "twilight baby" was born yesterday afternoon to Mr. and Mrs. Ben Deuser of No. 3445 Pasadena avenue. The mother, who is but 16 years of age, is said to be one of the youngest American women who has undergone the Freiburg treatment. The child is a seven-pound boy, and the mother, entered the twilight sleep almost ten hours before the birth. Dr. S. O. Coolidge attended Mrs. Deuser.

Not Squared Yet. An "Honest Injun" who recently went from the Alexandria a contribution of \$1 to the "commerce fund" of the Treasury Department still owes 30 cents. This anonymous person recently secured a \$100 worth of drawn work and, being told \$1.50 free of duty is allowed, sent the collector of Customs \$1 to cover duty that might have been paid at the border line. Failure to declare the goods, however, made it subject to a duty of 40 per cent, or \$1.50 in all.

Law Freshmen's Banquet. The annual banquet to the freshmen of the college of law, University of Southern California, will be given Saturday evening at the Maryland, Pasadena. The Pacific Electric has arranged for special service and the college of law train will leave Sixth and Main streets at 6:20 p.m. About 500 students will make merry at the feast, enjoy the discourses following and then the entertainment provided by the Maryland. The arrangements are being made by the Executive Committee of the student body—John C. Haynes (chairman), Harold C. Morton, Richard C. Glass and John E. Burton.

Theological Teacher Here. Dr. Thomas E. Cramblet, president of Bethany College at Bethany, W. Va., and one of the West Virginia commissioners to the Panama-Pacific International Exposition, will preach this morning at the Broadway Christian Church. Rev. Hulsar, pastor of that congregation, graduated from Bethany College and is an old friend of the distinguished visitor, who will be in Los Angeles several weeks. He arrived with Mrs. Cramblet Thursday at the home of his niece, Mrs. Guy E. Maurice, No. 1271 West Thirty-fifth street, and a number of entertainments are being planned in his honor. Dr. Cramblet was for a number of years pastor of the First Christian Church of Pittsburgh.

Wisconsin Folk to Meet. The Wisconsin State Society of Los Angeles County will meet in the Times Assembly Rooms, First and Broadway, at 8 o'clock on the night of Monday, December 6. An entertaining programme will be followed by dancing and cards. Included in the programme will be an original Wisconsin song, composed by Mrs. James Armstrong Steele, and the music will be led by Mrs. C. Page, Rose Fraser and Marie Webster. Harry E. Andrews, managing editor of the Times, will speak on "The Coming Civilization." Mrs. M. Connel will tell of her experiences when he was 10 years of age, and Miss Georgia Mintz of the Cumnock School will give readings.

WOMAN FREE ON BOND. Charged With Arson Attempt. She is Declared Ill and Will go to Sanatorium.

Mrs. Harriet A. Canfield, who was arrested several weeks ago on a charge of attempted arson, after the police discovered a large quantity of distillate in the Canfield Hotel, was released last night under \$5000 surety and \$2000 cash bond, which was approved by Justice Hanby.

J. B. Blakesley and William McLaughlin qualified as the bondsmen. The court order releasing Mrs. Canfield was issued by Justice Hanby on the grounds she was ill. Friends declared last night she would be taken to a sanatorium.

UNDELIVERED TELEGRAMS. There are telegrams at the Western Union office for G. W. Crotts, George Cully, Mrs. William Doherty, John Fleming, Stella Fowler, Mrs. J. P. Freilich, Miss A. J. Glasgow, Charles E. Gray, Miss Constance Howlett, Thomas F. Martin, W. M. Murdoch, Charles R. Rollinson, P. T. Sanons, Earl Upthegrove, R. P. Wall, G. V. West, H. A. Williams and H. J. Williams at the Postal for Harry E. Arnold, W. L. Dodd, Charles McMillan, Theodore A. Lipke, Charles A. Baunstarck, Mrs. C. B. Wade and C. W. Oates.

FOREST FIRES DECREASE.

Less in Angeles Reserve During Season Than in the Two Preceding Years, is Report.

Statistics just completed by Supervisor R. H. Charlton of the Angeles National Forest show that during the fire season of the present year there were 113 fires, compared with 153 in 1914 and 137 in 1913. Of the fires during the season just closed, two were caused by railroads, seven by lightning, three were of incendiary origin, eleven were caused by brush fires, sixty-six by campfires, and thirty-two from unknown causes.

The rapidity with which the forest rangers and fire fighters act is shown in the fact that the average time consumed in making a report on the fires was but three minutes, and that an average of eleven minutes was employed in getting to the blaze. The average duration of the fires was two hours, and the average number of burned acres averaged forty-six; the total burned area was 2843 acres, of which 2182 were within the confines of the national forest.

The prevention cost, through the efforts of rangers, was \$7760; miscellaneous, \$1256.92, or a total of \$9016.92. The suppression cost, through the efforts of rangers, \$702.37; miscellaneous, \$4531.08, or a total of \$5533.45.

Who Shall Measure its
Musical Possibilities?
Unique in design and fully representative of Kranich & Bach standards of construction. This wonderful instrument is the perfect realization of the artistic and musical ideals for which the foremost piano manufacturers have striven for nearly twenty years. The player mechanism, until required for use, is practically concealed, and the beautiful lines of the Grand Piano are not changed. In no other Player Grand is it possible to hide the fact that the instrument contains self-playing mechanism. Your Silent Piano Accepted in Part Payment. Convenient Terms if Desired.

OVER A HUNDRED MILLIONS
FOR CALIFORNIA RANCHMEN.

Magnificent Crops and Highest Prices Ever Known for Most of Them Mean Fortunes for Tillers of the Soil.
South's Share Three-fourths.

WHO WOULDN'T like to be a California ranchman this year? The tillers of the soil are digging free gold out of every acre, and counting and pocketing about \$115,000,000 received for their crops. Of that amount it is conservatively estimated more than three-fourths comes to Southern California, with its fields and orchards rich beyond compare, and its production ever increasing.

It is a banner year in this State for agricultural output, and that output is commanding in nearly all cases the highest prices ever known—and the ranchman reaps the benefits. During the past three months the prices of wheat, sugar beets, rice, walnuts, hay and dried fruits have steadily advanced, and the top of the market is not yet in sight. The pile of gold is growing higher.

California ranchmen are getting about \$25,000,000 more this year for their crops than last, and that was a good season. But there has never been such a demand as at present for the good things we grow. Beans and prunes, for instance, are fed daily to hundreds of thousands, if not millions, of fighting men in the European trenches, and there's a call for more; more!

With the extraordinary foreign demand for the Golden State's products and the heavy consumption in the home market, the ranchman has more markets than he can supply, and appears to be getting about all the money he can comfortably carry. He is growing opulent, he is building fine homes, he is buying the best autos, and he is enjoying life. The present is good to him, and the future is a rainbow of promise.

One of the most valuable crops raised in California this year was wheat. The yield was 115,000,000 bushels, or 11.5 per cent. of the normal. This is the highest yield in the history of the State. The total amount of all varieties of wheat raised in the State is 1,150,000 bushels, consisting of 1,100,000 bushels of hard wheat, 50,000 bushels of soft wheat, and 100,000 bushels of mixed wheat.

Wheat is not the only crop that has been successful. Beans, prunes, walnuts, hay and dried fruits have all advanced in price. The price of beans has advanced 10 per cent. in the last three months. The price of prunes has advanced 20 per cent. in the last three months. The price of walnuts has advanced 30 per cent. in the last three months. The price of hay has advanced 40 per cent. in the last three months. The price of dried fruits has advanced 50 per cent. in the last three months.

Messrs. Kranich & Bach,
Gentlemen:

I cannot refrain from expressing the extraordinary pleasure and satisfaction with which I listened to the rendition of several selections on your Player Grand Piano a few days ago. The musicianly effects achieved, the perfect range from the delicate and beautiful legato tones to the magnificent climax surpassed anything I have ever heard on any player-piano.

The amazing thing about it all was the ease and simplicity with which these beautiful effects were produced.

I have been present at numerous recitals and musicales where player-pianos were exhibited, and many of them were exceptionally well demonstrated, but I can unhesitatingly say I have never heard the equal of the Kranich & Bach Player Grand for tonal beauty and artistic playing possibilities. Yours very truly,

OTHER OMISSIONS IN GOMPERS' CITY CLUB TALK.

Unionite Mouthpiece, Who Characterizes Murderous Dynamiters as "Martyrs," Again Appears Arrayed in Fine Clothes and Decked with Jewels.

Samuel Gompers, president of the American Federation of Labor, who was introduced here Friday night as "the greatest man in the world," talked to the City Club yesterday.

Probably to many of those in attendance the fact came with peculiar significance that Gompers timed his visit to Los Angeles at a period when the defense fund for Schmidt and Kaplan, indicted dynamiters, is at a distressingly low ebb and must be strengthened; when Olaf Tveitmo is staying in Los Angeles, and other walking delegates—and some who don't walk—are here, drawn by the trial of M. A. Schmidt on the charge of murder in connection with the destruction of the original Times Building; and at a time when from various quarters comes the report that a desperate effort is to be made to unionize this city.

Gompers carefully refrained yesterday from stating just why he came to Los Angeles. He refrained also from making other explanations, although he took time to read in full the report in yesterday's Times of his speech at the Labor Temple Friday night, and pretended to answer it as he went along.

The statement of the Times that Gompers enjoys luxury was at the cost of the rank and file of the labor unions seemed to hurt him deeply. He spent much time on this phase. Arrived in a dark suit of rich material, Sore Sam stood before his audience with a gold-and-diamond pin scintillating on his heavy silk tie, a massive rope gold chain reaching across his ample vest front; a heavy gold ring with jeweled nest on his soft hands, gold-mounted spectacles astride his nose, and a gold badge, jewel set, adorning his bosom. He solemnly declared that he had worn the same suit for sixteen days!

Gompers' readiness of extracts from the Times in which his laudation of the McNamara assassins was set forth, but in his comments he failed to make any reply to this fact. He read the declaration regarding his programme here and

HARRIMAN AVOIDS PRODUCING ACCOUNTS IN COURT.

Action by Colonist Who Invested All in Socialist Utopia and Demanded His Money Back Is Compromised When Revelation of Inner Workings Seems Near.

In Judge Works' court tomorrow Job Harriman, a socialistic colony, known as the Llano del Rio Company, would have been on trial. Revelation of the inner workings of the colony would have been made through the books of the corporation. A demand for them has been made on Job Harriman by M. W. Beck, a stockholder, who was expelled, he declares, because he wanted to know more about the management of the colony, and who was arrested, charged with extortion, because of letters he wrote demanding money he had paid for stock in the corporation.

Almost on the eve of the hearing on the order to show cause why the books which Harriman had refused to deliver on demand should not be produced, the writ of mandate brought by Mr. Beck, through Attorney S. S. Hahn, was dismissed by a stipulation drawn in Harriman's office, and Job, Attorney Hahn says, personally paid \$255 claimed by Mr. Beck—\$425 paid for the stock of the corporation and \$200 representing what is known in the colony as accumulations on the books.

The stipulation was taken to Mr. Hahn, signed by J. E. Buem, manager of the colony. It explicitly stated the dismissal was "with prejudice," which bars any further action, and closes the incident so far as Mr. Beck is concerned.

"Mr. Beck, who invested all he had in this colony," stated Mr. Hahn "stood up for his rights. If the case had come to an issue, the fight would have been to keep from the public the inner workings of the colony, which would have been revealed by the investigation. If we had gone into the matter we would have shown just how the colony is run. We made a demand for the books and had an auditor, A. Z. Monell, selected to probe them, but Mr. Harriman refused to surrender them when they were served, which compelled us to sue for a writ of mandate, to compel him to bring the books into court or show

High-water Mark.
**CAR LOADINGS
BREAK RECORDS.**

FIGURES ON OUR PROSPERITY ISSUED BY SANTA FE.

October Shows Biggest Freight Business in History, also the Record Loading for any One Day. Interstate Commission Voices Words of Caution.

Establishing a new high-water mark of prosperity, 147,529 cars of revenue freight were loaded on Santa Fe rails or received from connecting lines during October, according to a statement issued yesterday by the Santa Fe freight department.

In addition to showing increases in loadings of 10,978 cars over the corresponding month of 1914 and of 17,886 cars over September of this year, October also hung up a new record for the largest loadings in any one day. This record, 6418 cars, was established October 17 and broke a record that had stood since October, 1912.

Except in grain and perishables, the October loadings in all departments of the Santa Fe system are new records. The loading of miscellaneous freight was 94,042 cars, compared with 82,579 cars in October, 1914; the loading of stock was 14,133 cars, as against 12,765 cars last year; of coal 10,779 cars, as against 10,623 cars last year; of oil 7224 cars, as against 6853 cars, as against 5149 cars last year.

However, the heavy loadings are looked upon by officials of the Santa Fe and other railroads with some apprehension, as the continued increase of car demands is rapidly depleting the supply. Throughout the East the situation is acute, according to railroad officials, with the demand for cars the greatest in years, and all Atlantic ports congested with freight for export.

Recently many of the railroads had to place embargoes on all freight for movement to New York, because of the congestion of terminals, while requests to hold back consignments for export have been spread broadcast through the East.

In connection with the heavy loadings, the following circular has been issued by the Interstate Commerce Commission:

"Normal complaints to the commission indicate that the annually recurring failure of transportation facilities, known as car shortage, has again appeared. The commission urges on all shippers and all carriers that close attention to methods of loading, unloading, moving and promptly returning to use the cars now available will go far towards making the present supply of cars sufficient for all purposes.

"In order that the business of the country may go forward without interruption, the commission urges shippers, both individually and through their associations, to co-operate to secure the prompt and full loading of all cars and their prompt release.

NEW TAX ON AUTOS
TO RUN GOVERNMENT?

Dollar per Horse Power is Proposed by Democratic Administration.

'Would Amount to Hundreds of Millions of Dollars and be Levied on the Manufacturer, but Ultimately the Consumer Would Pay—Economy Plank at Washington a Mockery.'

THE haunting cry of revenue has stirred the Democratic administration to dig into every possible avenue for money. The latest suggestion that emanates from Washington is to levy a tax of \$1 per horse power upon every motor vehicle manufactured in the United States.

The Democratic plank pledging economy in the administration of the government, said plank having been unanimously adopted at the Baltimore convention, and just as unanimously forgotten by the beneficiaries of it, has become a mockery of the worst order.

Ten years ago the cost of being governed in the United States was just about one-half the amount proposed by the Democratic party leaders to be spent in 1916. It is estimated that \$1,350,000,000 will be needed to run the government next year.

This 100 per cent. increase in governmental cost in ten years does not square with the Democratic pledges of economy, but since the revenue from a protective tariff has been lost to the country a new source of revenue must be devised.

For three years the suspicion of waste in conducting the government has mounted to a conviction that extravagance and profligacy have supplanted economy in administration. The Democratic plank calling attention to Republican extravagance and pledging Democratic economy has come to be known as one of the most successful jokes ever played upon the American people.

The Democratic expense by legislative act and otherwise has grown to such alarming proportions and the ordinary sources of revenue have fallen away to such an extent that the Democratic administration has turned to the automobile manufacturer to supply the deficit.

CONSUMER, OF COURSE! The National Automobile Chamber of Commerce has received authoritative information that the next Congress will legislate for a tax of \$1 per horse power upon motor vehicles and is preparing to wage a strenuous campaign against it. It is proposed to make the manufacturer pay the cost, but in the ultimate the consumer will have to take it out of his own pocket because the overhead will be charged in the cost of each machine sold.

At the last meeting of the automobile chamber it was explained that the automobile trade can best stand the tax because of its prosperity. This explanation came from one of the friends of the administration, who did not attempt to conceal the proposal to levy the tax.

No thought was given to the great number of manufacturers who are having a difficult time to survive the keen competition in the business.

Local automobile dealers were asked yesterday to help combat the tax because of its prosperity. They gathered which are expected to flout the theory that the manufacturers are paid on automobiles, both by manufacturers and consumers, that to heap an additional tax is a step toward confiscation of property.

To offset any such thought, on the part of legislators, a letter from the National Chamber of Commerce to a manufacturer of motor trucks in Los Angeles, "The N.A.C.C. proposes this supply figures which will go to prove how the manufacture and sale of automobiles affect every part of the now under way.

country, giving employment to thousands and creating business for industries of various kinds, whose products go to make up the modern motor vehicle, with dealers, misersmen and gas station owners in practically every town and village making a livelihood in the business.

The vast revenue which would be produced from such a tax can hardly be accurately estimated at this time, but a general idea of the money which the Democratic administration hopes to see rolling into the treasury from this source may be gained from the fact that there were, on July 1, 1914, 392 automobiles and trucks in use in the United States. That is the registration reached that figure.

That does not, by any means, include the number of manufactured cars exported to Europe, and the industry has been tremendous because of the demand for motor vehicles in the "Old World."

SOME "FIGURES" Taking the 2,676,993 cars registered in the United States on July 1 as a basis for calculation, and estimating the average horse power of each vehicle at thirty, the revenue derived from these alone would amount to more than \$60,000,000. Add to that the annual output of cars and trucks in 1915, the revenue upon a basis of \$1 per horse power, would be \$100,000,000 for cars sold in the United States alone. Another \$40,000,000 would be derived from the tax levied upon those cars sold in other countries and manufactured here.

Take, for instance, the little Ford, with an annual output of about 400,000 and an average of twenty horse power. The revenue from these cars alone would be \$8,000,000, which the manufacturer would have to stand and which the consumer finally would have to pay.

A mighty protest will be sent to Washington when the proposed motor vehicle tax is broached in Congress, and with this protest will go not alone the opposition of the manufacturers, but that of the dealers and consumers as well.

What the people will demand is that real economy be practiced and that the administration stop itself from consuming its time skimming new sources of revenue to create more jobs and more commissions and more expense.

MONEY ASSURED.
Railroad Commission Authorities Bond and Stock Issue for Palo Verde Valley Line.

Authority to issue \$250,000 first mortgage 6 per cent. bonds, \$400,000 second mortgage 6 per cent. bonds, and \$250,000 of capital stock is given the California Southern Railroad Company in an order issued yesterday by the State Railroad Commission.

The bonds are to be not less than \$25 per cent. according to the commission's order.

Of the stock, \$250,000 is to be sold and \$75,000 issued to J. M. Neeland for services rendered in connection with the organization and promotion of the railroad. Of this amount \$37,500 is to be issued now, and the balance after the completion of the railway line which will connect Blythe in the Palo Verde Valley with Blythe Junction on the Santa Fe.

Neeland is president of the contracting company.

The proceeds from the sale of the stocks and bonds are to be used to build the railway, work on which is now under way.

Prominent Farmer in Canada Describes His Recovery and Escape from the Operating Table.

In a letter to friends at Saskatoon, Mr. F. Gifford, of the Ball Rock Farm, Maymont, Saskatchewan, Canada, says: "Thanks to Fruitola and Traxo I am alive. I lay on my back for sixteen days, suffering the agonies of a dozen deaths. I began taking Fruitola and was relieved of a great many gallstones. My health is now fully restored.

Fruitola possesses properties that act directly upon the intestinal parts. It is a great system cleanser, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and quickly expels the accumulation to the great relief of the patient. Traxo is a tonic-alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.

Fruitola and Traxo are prepared in the Pinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Los Angeles they can be obtained at the Owl Drug Co.'s store.

One Hundred Different Kinds of Christmas Gifts

IN A HOLIDAY SALE Twenty-three shopping days until Christmas! Until that time many people will have to buy, wrap, address and send as many as a hundred different Christmas gifts. So this store has inaugurated

VILLE DE PARIS
317-325 312-322
50 BROADWAY 50 HILL STREET
A. FUSENOT CO.

Sample Line of Blouses

At \$3.85 and \$5

These have arrived just in time for this great holiday. There are seventy-five in the \$3.85 lot made of crepe de chine and lace. Extraordinary waists at a low price. Most of them are small sizes. Cream black waists, and some with fur trimmings and fur lined with crepe de chine and Georgette crepe. The \$5 waists are also of crepe de chine of a very heavy weight in six different styles—white, flesh color, black, navy blue and cream-lace over flesh-colored chiffon with some of colored velvets to match your suit as trimming. This lot also includes new plaid and striped taffeta silk and Georgette crepe embroidered by hand in flesh color.

Can you imagine any woman with the slightest bit of sense failing to see the beauty in such a gift?

Charming Dancing Dresses
Reduced to \$15, \$16.50 and \$19.75

Beautiful little dresses of silk in new styles—with the last word in style in their lines—that final making that makes a fashion good and in a young woman's eyes. The silks are rich and fine and good and not a poor piece of silk in the lot. The skirts are "puffed" with the wide draperies; the bodices are simple and becoming, and with a bit of white. They are charming and coveted—possible gifts.

Crepe de Chine Nightgowns \$3.85

A low price, yet a price that many a woman would demand for a nightgown if she were buying for herself. Now she would enjoy receiving one! They are made of heavy rich quality of crepe de chine with a hemmed fold around the throat and armholes, giving a charming and very simple finish.

Camisoles at \$2.50

Made of Georgette crepe in flesh-color, white and black—camisoles are used almost as a beautiful lining for a Princess slip might be used. A lovely thing to wear through a sheer blouse. These are made with lace and are trimmed with footing and satin bands. They are the newest, nicest camisoles that have yet come. Black threatens to become very fashionable—certainly it is very useful to any woman who uses black. Excellent gifts.

Women's Sweaters, \$5

These have been very much higher in price and are reduced for this sale. Gray, tan, white, in a good heavy weight, and knee-length, which means particularly good for women who motor. Boxed if you ask us to box them.

All-Wool Challis, 39c

Five hundred yards of it, at this remarkable price for tomorrow's fore-handed Christmas shoppers. They are all wool. You will, of course, expect to find these in good patterns, dark and medium, and just as unusual as they sound. Nothing could make a better gift to one who needs it.

Boys' Wash Suits \$1 and \$1.50

Brand new, heavy galatea—all white, some in Middy, Tommy Atkins and Tucker styles, some with vestes. These are the suits that little boys in every station find most comfortable—and therefore they are the best gifts.

Combing Sacques at \$1.25

Made of Beacon blanketing in pink and light blue. Most any woman would like such a gift.

A Holiday Gift Sale
More than a hundred different kinds of gifts will be sold at less than usual prices, tomorrow!

Every department in the store will contribute at least one line, sold in that department at less than the usual price.

Let's look at these things for which there is space here, and will you take it for granted that everything else in the sale is equally low in price and equally fine in quality?

An Extraordinary Sale of Silks and Dress Goods At 75c

One of the biggest movements in this general store movement. We have gathered together some twenty-six hundred yards of silks and woollens for this important event—this first big day of Christmas shopping. Here are the precise details of the sale.

Dress Goods At 75c

250 yards of 41-inch printed silk poplins in a dozen of the best colors of the season. 100 yards of 54-inch novelty suitings, striped chevrons principally, in blue and green combinations. 55 yards of plaid woollens in the lighter colorings. 60 yards of 54-inch bordered wool poplins, in brown, navy blue and black, with the multi-color striped borders. 135 yards of 54-inch broad-clothed woollens, mostly monotonous. Practical shades used for coats and suits. 75 yards imported suitings, assorted patterns, mixtures mostly. 225 yards assorted novel ties in self-colors in a pretty general range of beautiful colors.

We also include in this remarkable sale 135 yards of 56-inch All-Wool Coatings in rich plaids and multi-color stripes.

125 Yards Milliner's Plush—All Colors.

Christmas Ribbons

For fancy work and for tying up Christmas gifts. The fancy work ribbons are warp printed with shaded roses or some other beautiful pattern printed on the warp before the ribbon is fully woven.

These are four and five inches wide and 20c a yard. Another quality 4½ to 5½ inches wide in flower patterns and fancy colors and stripes is a wonderful ribbon at 25c.

Women's Leather Bags \$1.50

All leathers, nearly all different styles. Five dozen beautiful sample bags at \$1.50. Less than the manufacturer's price. These are every one of them made of real leather. There are nearly as many styles as bags, and the fittings are almost as varied as the styles.

The Basement Salesroom

The warmed-over items left from the Basement Whirlwind that struck this store Friday! If lines are broken, prices will be even lower than on Friday—and like Thanksgiving turkey, it may seem better the second day than on the first.

Silk Stockings A Splendid Gift

From the right person, silk stockings prove among the most acceptable of all gifts to both younger women and women of more mature years.

At 65c
Pure thread silk, an extraordinary fine quality and in good colors. Black, brown, tan, red, champagne, sky-blue, purple, dark blue, terra cotta, peacock green. Sizes 8½ to 10.

At \$1
A very fine quality for the price, of pure thread silk. All sizes, practically all colors and black.

At 35c
3 pairs for \$1
Cotton stockings. Medium weight, with double heels, soles and toes, reinforced garter tops. In colors and black. It is also true that some women prefer cotton to either silk thread or silk. They seem softer to the foot.

At 35c
3 pairs for \$1
Very fine silk thread—for some women prefer silk thread, strange as that may sound, to silk. These are very well made in colors and black.

Boxed Stockings
Some people think a trade-marked stocking makes a more acceptable gift, so we have the Phoenix silk stockings packed in gift boxes ready to send, at \$1, \$1.50, \$2 and \$3. These, of course, are guaranteed.

Men's Silk Sox
50c, \$1 and \$1.50
Ready in Christmas boxes—the Phoenix Brand.

Novelty Silk Handkerchiefs At 10c Each

These have been very much higher priced and this year are very much used, particularly by younger women and girls. Lavender is the great color—lavender and white—but there are pink, blue and white as well as lavender. Most of them have colored or white centers with hems in contrast.

Silk handkerchiefs really came into fashion at the time linen threatened to become exhausted before makers began coming into the flax cotton fibers. For an inexpensive gift these are extremely good.

Linens Come into the Holiday Sale with Splendid Items

These are, of course, greatly under price. A contribution to this great holiday sale.

Damask lunch cloths, 36 inches square, a fine heavy weave with a nice high satin finish, \$1.50.

Fifty dozen double-thread bleached Turkish towels, actual size 23x48, 25c.

Fancy curtain materials at 15c a yard, consisting of 36-inch figured drapery, madras and 40-inch curtain nets. 15c a yard.

Fancy tapestry couch covers, size 60x100, Persian designs, \$1.75 each.

Fine satin finished dinner napkins, size 26x26 inches, handsome new patterns, circular designs, double satin damask, \$6.50 a dozen.

Hemstitched colored damask table cloths, size 66x66, in Delft blue or pink, \$3.45 each.

Damask pattern cloths, 66 inches square, of good quality pure linen, heavy weight, with a beautiful satin finish, \$2.95.

One lot of Yankee Hill Hygienic crocheted bedspreads, Marseilles pattern, woven of a double selected yarn, snow-white bleached, hemmed, \$1 each.

One lot of wool-filled comforters covered with a good quality figured silk-oline, finished with a 9-inch silk mull border to match, \$2.95 each.

One lot of the well-known Pequot sheets, size 81x90, 70c each.

One lot white satin Marseilles bedspreads, scalloped cut corners, actual size 88x98, \$3.95 each.

One lot of white Queen, snow-white, full size (72x84), cotton batts, made of Imperial cotton, weight three pounds, 85c each.

Smart Hats, \$3.15, \$4.85, \$6.75

This is a gift that a woman ought to choose for herself. As early as September women began wearing autumn hats; by December they need something new—something fresh, particularly in this climate where the rains have not yet started, so we shall be ready tomorrow with hats unusually fine at \$3.75, \$5 and \$7.50.

They are hand-made, most of them from

25—The New White hats and smart turbans and rolling brimmed sallores of white satin, plush or velvet.

22.50—Clever Turbans and sallores of silk velvet, trimmed with flowers and fur.

27.50—Large sallores and Pikes made of gold and silver lace or of fine silk velvet.

Hand Embr'dered Models Reduced

If you are going to make Christmas gifts, now is the time to get at it. Within a week or ten days there will be no time left for anything. If you are going to buy fancy work already done, here is your opportunity.

Boudoir caps 95c, all ready to put on. Various styles and colors, sheer, with embroidery and ribbon—caps that have been very much higher priced.

At \$2.95
Beautiful nightgowns that have been used as models; a few combination suits and some very elaborate dressing gowns. Some at \$1.95—a little soiled.

At \$3.95
Model nightgowns of the finest sort. Quite elaborate. The price is surprising, considering the quality.

Corsets for Gifts

These, like hats, have to be chosen by the person to whom the gift is given. A "Merchandise Certificate" for the price or a corset will accomplish this.

P. N. Corsets \$1.50

Sizes up to 32. This is a practical side-model with reversible side stays to prevent breaking at the waist line. Medium high bust, medium hip. Spoon shaped front stay. An excellent corset for medium stout women.

Merode Underwear \$1

Sizes 36 and 38 bust. Silk and wool, with high neck, long sleeves, in ankle length. These are among the most practical of all the gifts in this sale.

Women's Underwear 65c

Lisle thread, an intensely practical gift and one that may prove as acceptable as anything you could give. There are both low and high neck vests with long sleeves or with no sleeves. The underdrawers are knee length.

Infants' Dresses 50c

Fine white nainsook, trimmed with delicate laces, either long or short. The very most practical gift a mother with a lot of children could receive.

Children's Coats \$2.95 and \$3.95

Broadcloths and zibeline, with collars of black velvet or plush. Practical gifts for your "neighbor's" child.

Children's Sweaters, \$1.95

These are gray and white, with red collars or with blue collars and cuffs. A gift that almost any child would like.

THE DUTY OF CONGRESS.

The country is looking with hope and, to some extent, with expectation for remedial legislation from the Congress that is to assemble at Washington next Monday. Between the devil of the Baltimore platform and the deep sea of national bankruptcy the President himself is hesitating which course to choose. He stands on the party platform so far as he can, except that plank which pledges him not to accept a second term, and yet he is too much of an academic patriot to watch this nation, under his inconsiderate domination, plunge into the vortex of insolvency.

He knows very well—and tacitly admits—that only the unusual conditions consequent upon the European war have saved us from closed factories, silent forces, railroads in the hands of receivers, homes for sale by the Sheriff, and highways beaten to dust by tramps, such as resulted from the second election of Cleveland, and oppressed the nation until the people's revolt against their own prosperity in 1892 spent its force and was succeeded by a return to sanity and protection in 1896.

Knowing this, it may be surmised that Mr. Wilson will favor rather than oppose the Democratic Congress in taking the back track by throwing "a tariff for revenue only" into the discard, and re-enacting the customs revenue laws under which the country achieved a marvelous growth between 1894 and 1912.

But a revision of the tariff on lines of protection will not be the only duty which the incoming Congress will be expected to perform. All men of all parties admit the desirability of a restoration of our commercial ocean marine to a position befitting this nation and the mighty opportunities which lie before it, but all are not agreed as to the best means to be adopted to achieve this end. There is little opposition anywhere, and no opposition whatever in California, to an immediate and unconditional repeal of the La Follette sailors' law under which the American flag is disappearing from the Pacific Ocean to give place to the Japanese ensign. But the proposition of having the United States government engage in business as a common carrier of freight and passengers in vessels to be built or bought by it is not regarded with favor in any quarter. The best way, if not the only way, to build up our merchant marine will be by liberal payment to privately-owned ships for postal service. This form of subsidy is not open to the objections which can be made to direct grants of money, and would be equally efficacious in the upbuilding of our merchant marine.

Congressmen and Senators of the Democratic faith can serve their country and reconcile the people to their election if they will carefully read and inwardly digest and abide by the ninth plank of their Baltimore platform, which reads:

"We denounce the profligate waste of the money wrung from the people by oppressive taxation, through the lavish appropriations, which have kept taxes high and reduced the purchasing power of the people's toil. We demand a return to that simplicity and economy which befits a democratic (not Democratic party) government, and a reduction in the number of useless offices, the salaries of which drain the substance of the people."

It is not an unfair criticism, but a fair statement of an unfortunate fact, to say that the course of President Wilson and the Sixty-third Congress, which he ruled as of old he ruled his pupils at Princeton, has been a brazen, unexcusable and unexcused defiance of the platform on which they were elected. The number of "useless offices" have been increased and not reduced in number. The appropriations have been so far in excess of any ever made by any Republican Congress that they have substituted a deficit for the balance which remained in the treasury when President Taft's term expired, and actual national bankruptcy has only been concealed from the people by the false book-keeping of counting as money in the treasury funds which have been appropriated but not yet paid out. Unless the revenues shall be replenished by an increase of tariff duties, and expenditures shall be reduced to the limit which existed when President Wilson took the oath of office, this nation will be compelled in a time of profound peace to resort to the practice which was necessary during the Civil War of issuing bonds to meet the ordinary expenses of government.

The income tax was unwarranted by any necessity. The stamp tax is a pestilential annoyance, on commerce, and these, when added to State, county and city taxes, are harassing, and such enormous drains upon industry that they discourage tariff and prevent accumulation. It is not the rich men of the country who feel these exactions, and not the poor or the spendthrifts. It is the middle class, the bone and sinew of the country who are struggling to pay for their little homes and educate their children.

Last but not least among the duties of the incoming Congress should be a repeal of the middle-class laws which obstruct and harass business and serve no good end. Away with the commissioners and inspectors and examiners and other extravagantly-paid leeches who, because they are "deserving Democrats," have been fastened as leeches upon the body politic, where they stick and suck and suck and stick every day in the year, Sundays and holidays included!

"SYSTEM D."
 The French recruit has many rules and regulations he must master thoroughly, many standards of proficiency he is expected to reach, numerous tests to meet in his arduous work before he becomes a full-fledged soldier of the legion. But no French soldier is looked upon as a first class man until he has passed what is known in the service as System D.

System D means briefly that a man knows exactly what to do in all emergencies without asking questions. A French legionnaire is a graduate in System D when he is capable of acting on his own initiative, and at the same time is sure that such action is in accord with military regulations. Ability to fill these conditions adds a mobility to discipline without diminishing authority, and creates in the French army mutual reliance.

A first class System D man can anticipate an officer's order without going beyond it, and this gives officers and men a homogeneity in action not equalled by any army in Europe. French officers don't make the mistakes British officers have made in the

A Ford Dream.

Seld—they have studied their men, and their men, in turn, have learned to understand them. A French officer can act for himself in a way that the German soldier, without an officer to direct him, generally fails to do.

Under this system individualism is not sacrificed to mechanical movement. All the units in the French army being in closer touch, System D has developed a military machine for France even superior to the wonderfully organized army of the Kaiser.

The system, of course, is not new in principle. It is the system on which the success of American business has been erected and through which American citizenship has been raised to so high a standard. It encourages mentality in all co-operators in any enterprise, quickens ambition, and has the exact opposite effect to the down grading that is part of every regime of state socialism.

When the war is over the System D men released from the French army will be valuable citizens for the republic, fitted with better trained intellects than they possessed before the war started.

TARIFF COMMISSION NOT WANTED.
 The end, if not the aim, of the "non-partisan tariff commission" will be to give an extravagantly-paid job to about five "deserving Democrats," and one underserving Progressive, and about two complaisant Republicans.

A fifth wheel to a coach would add more to the speed and safety of the coach than a non-partisan tariff commission could possibly add to the sum of knowledge concerning tariffs and their effects already possessed in the United States Treasury Department. Hundreds of American consuls in every country of the world are charged with the duty—which, as a rule, is intelligently and industriously performed—of ascertaining the amount and value of products exported from the place where they are situated, the wages of labor there, the sources of supply of raw material, and every element which goes to make up the cost of production. The reports of these consuls are filed in the department at Washington and copies are at the service of Congressmen and Senators who may apply for them.

If the Ways and Means Committee of the House of Representatives desires to adjust tariff duties upon the basis of the difference in the cost of production at home and abroad, it has at its command twenty times the data that it would be possible for any tariff commission to afford it, and it is more than probable that the deductions which the non-partisan tariff commission would draw from the facts, and the tariff law that they would frame upon the basis of these deductions, would not be superior to a tariff law that the Ways and Means Committee would formulate unaided by the commission.

At last the report of a "non-partisan" tariff commission would be merely recommendations to Congress. It would not take the place of legislation.

The Constitution of the United States, Article 1, Section 7, provides that "all bills for raising revenue shall originate in the House of Representatives."

"The primary object of all taxation is the raising of revenue for the support of the government, and all bills for that general purpose are bills for raising revenue." (Twin City Bank versus Nebeker, 3 App. Cases (D. C.) 199.)

Congress is all powerful in enacting a tariff law. Its legislation is subject only to a Presidential veto, and that it may override by a two-thirds vote.

There are some things that Congress and the American people know without being informed by a "non-partisan" commission.

They know that a flood tide will ebb, that Roosevelt will roar, that Bryan will bray, and that the moon is not made of green cheese. They know that an English factory operative, who eats meat but once a week, who lives in a crowded tenement house, and whose children are uneducated, makes cloth cheaper than an American, who has a cottage of his own, whose wife has a silk gown for Sundays, and whose children graduate at a high school.

They know that Sicilian orchard workers, who receive 60 cents a day, raise cheaper lemons than Californians, who receive \$2.

They know that Argentine sheep herders and shearers, who work for \$7 a month, produce cheaper wool than do the Americans, who receive four or five times that sum.

The creation of a tariff commission would result in a delay of a year or two before the present free trade tariff could be changed to a protective tariff, and the producers of the country want immediate relief from the operations of the Underwood monopoly that was enacted at the last session of Congress.

SHIP TOOLS TO
WEST MEXICO.Special Steamer Leaves for
Guaymas Tomorrow.Docks and Shipyards There to
be Re-equipped.Purchasing Agent Predicts
Big Trade with this City.

The Union Hardware & Metal Company yesterday completed arrangements with Arturo Gonzales, purchasing agent for the Mexican government and an intimate friend of Gen. Obregon, to ship several thousand dollars worth of tools and mechanical supplies to Mexican West Coast ports. Senor Gonzales and an assistant have been negotiating with officials of the company for several days and selecting the supplies. Senor Gonzales states the purchases will be shipped to Guaymas by a special steamer tomorrow or the next day. He hopes to complete arrangements for the remainder of the night and loading will be commenced tomorrow.

According to Senor Gonzales the best will be loaded to the limit with his purchases here, which include several complete marine engine sets for use at the Guaymas dry dock, and several hundred tons of coke for the governmental iron foundry at that port. Senor Gonzales says the docks and shipyards at Guaymas are to be overhauled and re-equipped. A majority of the supplies purchased from the local hardware concern will be used in outfitting those institutions, which it is planned to make the most up-to-date of their kind in Latin America. Other supplies which Senor Gonzales has purchased here will be used in constructing and equipping a modern naval training school which will be put into operation on the West Coast within the next six months.

Among the cargo of the vessel will be several hundred uniforms for the Carranza naval forces. These uniforms are duplicates of those worn by the American "jacks" in cut and material, but are of a slightly lighter color. They have been made by a local tailoring establishment.

During his three months' stay in the city Senor Gonzales has placed orders for about \$250,000 worth of supplies. This amount includes \$48,000 spent for radio outfits for the Mexican West Coast, which will be made by the Kilbourne & Clark Manufacturing Company of Seattle. Roy E. Thompson, general sales manager of the company, will accompany Mr. Thompson north tonight for a tour of inspection of the company's laboratories. Senor Jurado says it is planned to install seven of the radio outfits as soon as possible in Mexican ports and on the Mexican gunboat Guerrero. The radio sets will be of from two to five kilowatts capacity and under favorable conditions will be capable of communicating 700 to 1200 miles.

Senor Gonzales is reputed to be the largest exporter of native products in Mexico. He is styled the "zarbanero king" because of having cornered the Mexican bean market annually for several years. He is a very capable and astute admirer of Los Angeles and states the greater portion of the Mexican West Coast trade is destined to come here.

QUESTION QUEER
MARRIAGE STORY.YOUNG GIRL AND RANCHMAN
HELD; NO RECORD OF
A LICENSE.

Probation Officer Timmons is investigating the scattered threads of a queer story involving the elopement and alleged marriage of Miss Cordis Longacre, daughter of Mrs. Elsie Longacre of El Monte, with George W. Camp, an El Monte ranchman. The girl, who is 17 years of age, appeared from her home October 19, and, according to her mother, Mr. Camp induced her to leave. He says he is married to her.

Mrs. Longacre swore out a complaint against Camp, charging him with contributing to the delinquency of the girl. He is in the County Jail and his alleged bride is in Juvenile Hall.

Yesterday Camp was arraigned before Judge Reeve. He says he has been living with his girl-wife on his ranch. The license to marry was obtained at the Courthouse, but when confronted by the license clerk the latter said he had never seen Camp. There was no record of a permit having been issued. Camp says he was married by a Baptist minister at Burbank and described the pastor. The preliminary examination was continued until December 6.

BOARD ADOPTS
LONGER ROUTE.THAT WAY INTO MINT CANYON
SAID TO HAVE BETTER
GRADES.

After careful investigation, the Board of Supervisors yesterday morning decided to adopt the longer route from Saugus into Mint Canyon for improvement. Residents of the Newhall district argued for the short cut on the ground that it would save a detour of about three miles.

"We found that what we would save in distance would have to be made up in grades on the upper route," said Supervisor Hamilton. "Not only would there be many parts of the road built on a 6 per cent grade, but this high route would be just as liable to washouts as the one in the valley. The lower road would have to be improved and maintained ultimately whether the short route is adopted or not."

The board originally ruled for the longer road, but because of the protests of residents in the Newhall district, claims that the valley road would be subject to a great number of washouts every winter, the upper road was given consideration. Work on the lower road will be started this week, surveys having already been completed. Surveys for the balance of the highway, which will connect Antelope Valley with Los Angeles and also form the link between the State and county highways, are under way.

Who has placed immense orders here
for supplies for Mexico.

MORE TIME TO
PAY CITY TAXES.COUNCIL EXTENDS LIMIT TO
JANUARY TENTH.

Postponement of Delinquency Date Means Taking Gamble on Receipts for Next Few Days in Order to Meet Interest Payments on Water and Power Bonds.

The time for payment of the first installment of city taxes was extended until January 10 by the City Council yesterday by the adoption of a resolution and ordinance approved by the Finance Committee. In taking this action the city faces a problem of raising \$282,827 before 5 p.m. Wednesday to pay interest due December 1, and the vote of the Council in postponing the date of delinquency was taken on the statement of Chairman Wheeler that it is a "gamble" in which the city's credit is in interest payment is warranted against the receipts of the next two days. Odds are slightly in favor of the city's credit, however, because it may take a week or ten days for the bond interest coupons to get through the mail from New York.

With the resolution for extending the time for payment of the first installment, Chairman Wheeler presented a report of the city's finances to the close of business Friday. Tax collections up to Friday night, Mr. Wheeler said, amounted to \$1,260,542 while the collections last year up to the last Saturday before the time for payment of the first installment, Chairman Wheeler presented a report of the city's finances to the close of business Friday.

The needs of the city for interest payments on 1917 water bonds, next Thursday are \$499,719 while the cash in this fund now is \$210,107; leaving \$289,612 to be raised by December 1. It will take a total tax collection of about \$2,600,000 to give the interest fund the amount needed for the water bond interest. Also, there will be needed December 1 for interest on the 1916 electric bonds, \$78,750, while in this fund now there is only \$46,974; leaving \$31,776 to be collected for this fund.

It will take a total tax collection of about \$1,625,000 to give the interest fund the amount needed for the power bonds. Chairman Wheeler said that up until three or four days ago the tax collections were about \$200,000 below the collections of corresponding dates of last year, but, during the last few days they have mounted up so that the Finance Committee has been justified in considering the many appeals for extension of time for payment. If any action had been taken earlier looking towards extending the time, Mr. Wheeler said, the receipts would have fallen off immediately and the city treasury would not have been able to carry the burden.

INDEPENDENCE
ON AN ACREWell-known "Land Educator"
Will Deliver a Free Lecture
Tuesday Evening.

At the urgent request of scores of people who are anxious to get away from the struggles and anxieties of city life, to the peace and plenty of suburban farm, Mr. C. L. Schufeldt, lecturer and writer, has consented to deliver another free lecture Tuesday evening, Nov. 30th, on "A Living and Independence from an Acre."

Mr. Schufeldt has become widely known through his educational work among the school children of this city in the intensive cultivation of back yards and vacant lots. He claims that an acre possessing the proper soil, climate and water conditions, can be made to support a family in comfort and plenty. His lecture is fully illustrated with actual scenes of intensive cultivation, or "city lot farming," in Los Angeles. Mr. Schufeldt is the editor of the "Rural Southern California—Orchard, Farm and Garden" department of the Los Angeles Tribune. The lecture is given in the large ground floor lecture hall of the Angeles Mesa Land Co., at 433 South Hill Street, at 7:45 p.m.

CLEVER STAR

TO MAKE BOW.

Hattie Williams Comes to the

Burbank Playhouse.

Last Performance of Court-

room Play Tonight.

Last Week of Mission Play

Opens Today.

Hattie Williams, the noted New

York comedienne, is to make her first

appearance in the West at the Bur-

bank this afternoon in "Detective

Sparkes," a Broadway success of Miss

Williams.

The fame of the star

and the quality of the play in

which she will appear combine to

make the production one of the most

noteworthy of the season's theatrical

events.

Miss Williams, who has been in

New York productions for several sea-

sons, was a musical comedy star of

note before she went into serious dra-

matic work under Charles Frohman's

management. While she is well

known in the East, this will be her

first appearance in California.

"Detective Sparkes" is by Michael

Norton, author of "The Yellow

Ticket," but while the piece is full of

thrills, it is said to contain none of

the tragedy of "The Yellow Ticket."

Miss Williams plays the part of a

clever American girl.

Edmund Lowe, Winifred Byron,

Harry Duffell, Lillian Elliott, James

Corrigan, Grace Travers and others

are all well cast in the new play.

Mason.

"On Trial" will be given its closing

performance this evening at the Ma-

son. So great has been the demand

for seats that Manager Wyatt suc-

ceeded in booking the play for an ex-

tra night. It could well run another

week, but coming engagements for-

bid.

Majestic.

"A Pair of Sixes," Edward Peple's

delightful farce, is billed for the Ma-

sonic next week, opening next Sun-

day. Oscar Figman and the rest of

the New York cast will present the

play, which has had an unprecedented

run during the last three seasons, not

only in New York but throughout the

country.

Orpheum.

Two headliners will appear at the

Orpheum this week, beginning tomor-

row. Houdini, the master "escape ar-

tist," who is said to have found free-

dom from every contrivance framed

by the hand of man, brings a new and

sensational trick, known as the Chi-

nese water torture cell trick. Hang-

ing head down in water, his feet

tightly clamped in the lid, and locked

in, he frees himself from what looks

like certain death. Houdini is open

to any reasonable challenge.

Carolina White, the brilliant Ameri-

can soprano, who created the stellar

roles in "The Jewels of the Madonna"

and "The Secrets of Suzanne," while

with the Chicago and Philadelphia

opera companies, is the other head-

liner.

Others on the bill will be Willie

Weston, character singer; Mabelle

Lewis and Paul McCarthy, in "different

doings"; the Novelty Clintons, who

perform long-distance jumping feats;

and the holdovers, Lew Price and

Muriel Worth, the Primrose Four and

Elmer Kirk and Billie Fogarty.

Mission Play.

"The Mission Play" begins today

the forty-fourth and last week of its

world-record run at San Gabriel. Sat-

urday night, next, the last perform-

ance.

Stage Luminaries of the Week

THE SAINTS ON WOMEN.

BY ALMA WHITTAKER.

out with fiery is a keen and sharp-

edged sword in the hands of the

devil.

And St. Ignatius adds: "We have

a Pere le Jeune says, three things

to fear from intercourse with women,

empty pockets, loss of the result great

danger.

If I give free ad-

mission to women, even to those who

come under pretext of direction, I

shall be sure to lose my reputation,

and probably even my virtue; I shall

be despised and deserve to be de-

spised."

"Never forget that

it was a woman who ejected the ten-

ant of Eden from his holding."

Cornelius Lapidus is almost com-

plimentary: "Her glance is that of

the fabled basilisk, her voice a siren's

voice—with her voice she enchants,

with her beauty she deprives of rea-

son; voice and sight alike deal de-

struction and death."

"Let your conversations with women be

few, short, grave. Even their society

either smoke arises or flame."

Father Valuy has written reams

about the iniquity of women: "Be-

ware of scolding them so much as to

bring tears to their eyes. A woman's

tears are to her as pearls and jewels;

to the man who sees those tears

flow they are often pitch and bird-

lime."

There is nothing quite so discourag-

ing to women as the reading of the

Saints. They never refer to us with

a spark of kindness, all their ad-

monitions for us are for the benefit

of man. It is pretty obvious that

they believe with the Mohammedans

that there is no place for us in

Heaven, unless we have been clapped

in an hermetically sealed convent in

our babyhood.

It is safe to say if saints were fash-

ionable today there would be no such

thing as a woman's suffrage campaign,

it would have died e'er it was born.

These good men have nothing but

horror and fear of us; as for the pos-

sibility of any of us being spiritually-

minded, decent human beings, well,

St. Bonaventura is quite mild by

comparison: "A fair woman tricked

can imagine the good St. Paul writ-

ing miserably in his grave as a woman

preacher exhorts the congregation to

mark his words—who who was com-

manded never to lift her voice in the

sanctuary as being an affront to

God.

There are not many saints in the

world today. The only out-and-out

saint we know of is St. Almo-

Wright, who has written a book

showing that women are mere bi-

ological necessities, more often a bur-

denance than an advantage, and invariably

unbalanced silly fools.

Lord have mercy upon us!

SUNDAY MORNING.

Photoplay.
FILM LINE-UP
IS ALLURING.
Triangle Bill to be
Shown at Clune's.
Chimmie Fadden Out West
Comes to Tally's.
Ethel Barrymore on Screen
at Symphony.
The Noble Lerche. with Tully Marshall and Thomas Jefferson in the
staid wife turned but-
terfly. "The Father's Footstep," with
Berling and "Stolen Magic," with
Raymond Hitchcock, Mack
and Mabel Normand, will
be shown this week's Triangle bill at
Clune's Auditorium Theater.
The Noble Lerche. is said to be
desirable for Tully Marshall's de-
monstration of a half-breed Chinese bent
on a dual role. It is a
romantic story with a romance for
the players, who are declared to fit
into difficult parts. "Matri-
mony," Julia Dean finds herself wed-
ded to a husband who does not ap-
preciate her charms. She demon-
strates to him that other men find in
her that is attractive, and Howard
is converted into a very
husband, indeed. Ford Ster-
ling as "The Father's Step," a part of wide-scope. He changes
the course of the photoplay
from the start to a victim of
his son's sweetheart
"Stolen Magic" is a burlesque on
Indian conjuring, in which Ray-
mond Hitchcock, as a traveler from
the back to America a book
and a collection of sacred
Mack Bennett and Mabel
Normand are his host and hostess.
Ethel Barrymore in "The Final
Judgment," by George Scarborough,
will be the offering at the Symphony
theater this week, opening tomorrow.
The picture is said to be brimful of
interesting and dramatic sit-
uations, which afford the famous star
an excellent opportunity
to display her talents. The
story concerns the eternal triangle.
Ethel Barrymore is said to be sup-
ported by a strong cast.
Quinn's Superba. The original "Chim-
mie Fadden" of the stage, now the
Chimmie Fadden Out West, will
be shown at Tally's Broadway today as
"Chimmie Fadden Out West," "Chim-
mie" having married his "duchess,"
and went to grow up with the
money, and has many exciting ad-
ventures and funny experiences. The
picture promises much charm for
those who remember and love the fa-
mous E. W. Townsend characters.
The picture will enter its
second week at Quinn's Superba, to-
morrow, with the public apparently as
eager as ever to see this film ver-
sion of Eugene Brieux's great socio-
drama. Day after day long
lines of waiting people besiege the
theater before each show and in cr-
owds to accommodate the crowds, spe-
cial performances are to be given at
Clune's on Wednesday and Satur-
day nights, this week.
A feature of the attendance is the
number of children who are brought
to see this picture by their parents.
These schools are also forming
of their senior classes and
wondering in a body to see this
picture which Richard Bennett and
co-workers handle a delicate sub-
ject in a remarkably artistic and
sensational manner.
Her actions, while she was
suffering in a condition of aphasia
tragedy into the life of a
young society girl, in said
the unusual photoplay, which
made the programme opening today
at Garrick Theater. Excellent
contrast is promised in the
picture on the screen. "Body and
Soul" shows how Claire
temporarily loses all knowledge of her iden-
tity and wanders into the woods near a
cottage occupied by Scott Houghton, a
wealthy town, who has established
summer camp there. The girl seeks
refuge in the cabin and Houghton
knowing her condition, believes
she has made a conquest. Then
the man comes on the scene and
the two eventually quarrel over the
woman who lies in flight.
After a time, later, after she has re-
covered her mental peace, she agrees
to marry Houghton, but has no recollection
of ever having seen him before.
The man who tells her he is the
man who she is his body and soul, and
she is his point tells her that he
is the man who put a brand on her
forehead when they were together in
the forest. From that point the
picture is concerned with rapid action that
keeps the audience in suspense.
Florence Rockwell takes
the role of the unfortunate society
girl, who is said to be supported by
the most brilliant cast. The other pictures
in the programme will offer pleasing
contrast.
The "Cleopatra of the
Theater" will be the feature at Mil-
lons tomorrow night in Bar-
campbell's celebrated drama of
"The Galley Slave." In this
picture, a model, a role of a
limited opportunities for the
her wonderful genius and
charming.
The story is said to throb with ac-
tion and emotion and completely
one with its daring original-
ity and power and vitality.
The supporting cast includes popu-
lar Holmes, dainty Claire Whit-
comb and Little Jane Lee, the gifted
actress, 4 years old, whose tal-
ent have brought the picture-loving
audience to her tiny feet.
The latest of the Wallingford pio-
neers is the added offering.
"A Fool There Was," a vivid and
sensational adaptation of Kipling's poem
about the vampire, is the attraction to-
morrow at the Alhambra, starting
at 7:30. This superb production has
been brought back at the request of
the audience, who failed to see it during
its former visit, and also at the re-
quest of a number who have expressed
a desire to see Theda Bara in the

Los Angeles Sunday Times

Dramatic Reviews.
(Continued from First Page.)

ance of the season will be witnessed at San Gabriel. During the past week hundreds of persons have been turned away from the Mission play-house, unable to gain admittance. At one performance alone over seventy-five automobiles loaded the "sold out" sign on the gate.

When the play closes next Saturday night there will have been given 550 performances in California since its premiere in 1912. During the pre-

tomorrow offers a diversity of enter-
tainment.
The headline act is called Septeto
Tipico Mexicano, and is presented by
six Mexican signors and a beautiful
signorita, and promises much novelty.
Others on the bill will be Alberti and
Browell, the exposition dancers; Bo-
van and Flint, in "Fotografers"; the
Comopolitan Trio in high class songs;
Irving Gossler, the society entertainer;
Casady and Longton in "The
Smoke Queen," and Mack and May-
belle in "Fifty-fifty."

Republic.
Patriotic fun and frolic will be on
tap at the Republic Theater all week,
beginning tomorrow, as the headline
feature of the new programme will be
"Young America," one of the biggest
acts that has been seen on the Repub-
lic stage for some time. The offering
is said to be a big producer of ap-
plause as the "kiddies" that make up
the company are clever singers, dan-
cers and comedians.
Varley, a "character from Joyland,"
will contribute more humor to the
bill; Sam Evans, a ventriloquist, is
said to work in many new effects in
his act.
"Snap and go" are promised by Tas
Weatherford and the Kemp sisters;
Espe and Dutton will contribute gym-
nastic and contortion feats.
The feature photoplay will be "A
Modern Magdalen" with the talented
screen star, Catherine Countess, and
an excellent cast which includes popu-
lar Lionel Barrymore.

SOCIETY.

the residence, and inasmuch as the lady has scores of friends in Pasadena, the social season gives promise of being much enhanced by her affairs—for she always entertains lavishly.

Mrs. Burnes's home is to be the scene of an interpretative social Tuesday, 8 o'clock, when Sydney Francis Hobson of Australia and New Zealand will give Wagner's "Lohengrin." There is a fine subscription list of patronesses interested in the coming social and artistic event. Mr. Hobson has been in San Francisco until a day or so ago.

Mrs. Everett Halloway and her pretty young daughter, Miss Iris Piddington, of Quebec, who have occupied one of the bungalows at the Maryland for some months, have also spent the past week in the northern exposition city. It will be remembered that Miss Piddington figured constantly in the social life of the Crown City, and was instrumental largely in the tennis tournament which was held for the benefit of charity.

Mrs. Bartlett Shidler, her daughter, Miss Frances Lunkensheimer, and mother, Mrs. Frank Bartlett, also of Oak Knoll and Los Angeles, are also north, enjoying the waning days of the beautiful exposition, which is all too soon to be a dream.

Dinner of Ten Covers.

Mrs. William Wylie Johnston, Mrs. Richard Vincent Day, Mrs. Hugh Harrison, Miss Constance Balfour, Miss Ella Trus, Mrs. Oscar P. Gardner and Mr. and Mrs. Roy Ballagh were guests of Mr. and Mrs. James Henry Ballagh at the dinner Tuesday evening of the Women's Press Club of Southern California. Autumn leaves in a riot of glorious colors formed the base of a pretty fruit mound for the table's center, accented with chrysanthemums, yellow dominating. Hand-drawn place cards marked covers.

At Home in Camarillo.

Mr. Thomas John Donovan has issued cards announcing the marriage of his daughter Alicia to Thomas Charles Dilly, the interesting event having been solemnized on Wednesday, the 24th inst., at Camarillo, Cal., where the prominent young couple will be at home after December 15. The Donovan family is well known throughout the State.

For Miss Mahan.

Enjoyed to the utmost, was the pre-nuptial courtesy extended Miss Margaret Mahan by Miss Marian Gerard Saturday afternoon of last week at the hostess' home in Vista Park. It was an artistically-arranged boudoir shower, the invited guests numbering the following young ladies, who were former classmates of the bride-to-be at Cumnock: Misses Meriam Woodward, Pauline Gollis, Gladys Barnes, Ethel Bronson, Myrtle Hostetter, Beatrice Kitchen, Beulah Brower, Iva French, Rachel Puicks, Katharine Reynolds, Margaret Rose, Helen Layman and Florence Wilson.

Back from Summer Outing.

Mrs. H. A. Perkins, who has for the past several years resided in Ocean Park and Venice, is now in this city, where she is receiving her friends at the Belmont apartments. Mrs. Perkins spent the summer in Connell.

For Thanksgiving.

At her attractive home at No. 811 West Fortieth place, Mrs. C. W. Fielding gave a Thanksgiving dinner in compliment to her sister, Dr. Marie A. Everett of Detroit, Mich., roses, carnations and chrysanthemums in pink and white adorning the pretty board. Invited were Mrs. Minnie Day of Danvers, Mass.; Miss Marion Poole of Lynn, Mass.; Mrs. J. P. Ford, Mr. and Mrs. Albert Klide and Mrs. Maggie Harwick.

Receiving a Genuine Welcome.

Dr. and Mrs. Frank T. Howenstine have come in from their Venice residence on Second avenue, and are now at home to their many friends in the Melbourne, No. 127 Westlake avenue. Mrs. Howenstine invariably contributes many attractive social entertainments to the calendar, and her return is the cause of much happiness to an intimate coterie of acquaintances.

In Time for Thanksgiving.

Returning the past week from an extensive visit, which included in its itinerary El Paso, various Colorado cities and the Grand Canyon, Mrs. Louis Kleinberger is receiving a warm welcome from her scores of friends. This well-known matron has a beautiful home on South Vermont avenue, at No. 975, which contains a store of art treasures, foremost of which is a vase presented to her by one of the royal heads of Europe.

Much Gaiety at the Athletic Club.

Thanksgiving week closed with the delightful memory of many pleasant luncheon and dinner parties at the Los Angeles Athletic Club. The dinner-dance on Thanksgiving night was the banner event of the week and drew to the hospitable clubhouse more than 350 dancers. The spacious gymnasium, where the dancers held forth, the big dining-room and the comfortable lounge-rooms never looked more cheerful.

Two events on the night before rivaled in importance the big Thanksgiving dance. These were the dinner given by the faculty and student body of the University of Southern California to their visitors from Berkeley, at which nearly 150 were gathered, and the "ladies' night" flunk given by the jolly Uplifters, who, in addition to being hosts at a splendid dinner, gave their annual playlet, "The Uplift of Lodi." This also brought out about 150 merry-makers.

The club's attractive ladies' annex has enabled not a few well-known hostesses to pay off scores this past week. Mrs. Fred Berman, Sr., had guests to luncheon on Wednesday, and Mrs. Preston McKinney gave a delightful luncheon for eight. Other luncheon hosts were Mr. and Mrs. Robert B. Armstrong, Mrs. T. C. Rounda, Mrs. W. S. Hoag, Mrs. Don Morgan, Mrs. Harry Hillman, Mrs. C. S. Kent, Mrs. H. B. Dyer, Mrs. Frank Price, Mrs. E. A. McCarthy, Frederick H. Rindge, B. F. Elliott, T. B. Alexander, J. H. Leachbrook, Mrs. Clifford Horne, Garretson Dulin, Mrs. A. J. Mitchell.

The Athletic Club has an elaborate social and entertainment program for the winter, a feature of which will be the "watch party" and jinks on New Year's Eve.

Custer-Gunnels.

Thanksgiving was chosen for the wedding of Miss Bethel Rose Custer and Howard Eugene Gunnels, the ceremony being celebrated at the East Side Christian Church, by Rev. Walter Crockett at 5:30 o'clock, in an assemblage of some 450 invited guests.

Monroe Bryant was best man, and Miss Agnes Garrett, in a pretty frock of pink crepe de chene and carrying an armful of pink roses, attended the bride.

Winter's Footwear Styles

—Nearly every day some new mode in footwear fashions for mid-winter reaches us—styles just out of the designer's hands—shown for the first time in Los Angeles—and shown first at Hamburger's.

—Fashion's preference for shorter skirts makes your footwear one of the most important accessories of your wardrobe—shorter skirts, higher shoes—and in keeping with this axiom of Fashion we feature—

The "Vassar"—the New 8-inch 16-Button Boot

—Yes, 16 buttons high—a style of rare charm and individuality—a model that is the "rage" on Fifth Avenue, New York, and the talk of the East. Here in bronze, black, midnight blue, ivory, mahogany brown and purple kid—\$7.00.

The "Bronx"

—A modish new Gypsy-cut boot

—With new style features that will win your approval the very moment you see it. A smart button model, in dark gray, light gray and midnight blue—\$6.00.

—And these are only three of the many, many new styles now ready at Hamburger's for your winter wardrobe.

The "Rixie"

—New and Novel—Button and Lace Models

—Dark tan boots, with tan nubuck tops to match, and white piping at the seams—a dashing, jaunty model that will win the approval of all Los Angeles Fashionists from the very moment it is seen—\$6.00.

—And these are only three of the many, many new styles now ready at Hamburger's for your winter wardrobe.

SOCIETY.

themums and ferns were used as decorations, and at the close of the afternoon daily refreshments were served.

Mrs. Thomas Bynum entertained the Domestic Science Club at a 1 o'clock luncheon on Saturday at her home on East Hillcrest avenue.

Miss Ruth Marshall, assisted by Vivian L'Amoureux of Los Angeles, entertained the seniors and faculty of the kindergarten department of Los Angeles Normal with a luncheon at Emerson flats on Saturday. Guests who enjoyed the luncheon were Mrs. J. J. Walsh of Longford House and her daughter, Miss Ruth Keenan, Mr. and Mrs. W. F. Marshall, Mrs. Hugh Marshall and Miss Hope Anley, all of Monrovia, and Mrs. R. J. L'Amoureux of Los Angeles.

About forty of the Christian Intermediate Endeavor enjoyed a big wienie roast at the W. R. Martin home in Duarte on Friday evening, under the chaperonage of Mr. and Mrs. W. F. Palmer and Mrs. W. A. Dodder. An orange and nut fest followed, and a program of songs, with ukuleles predominating in the accompaniment, formed a weird musical setting for the affair.

San Gabriel.

THE week's festivities were enjoyed by many guests to whom the hospitable home in the community was opened. The lovely fall flowers never more beautiful than this year, the glorious balmy day of clear blue sky and summer-like sunshine gladdened the hearts of the eastern guests and Thanksgiving Day was a source of rare pleasure and enjoyment to a host of happy folks. Among the pleasures of the day was the dinner given at the home of Mr. and Mrs. C. W. Bean of San Marco street, when in compliment to some relatives visiting from the East an elaborate Thanksgiving dinner was served. In recognition of the day the decorations were artistic and most attractive and covers were laid for eight. Concluding dinner the remainder of the day was spent in informal and happy diversion.

Quite the most important event of the week was the reception accorded Rev. and Mrs. B. Brown at Johnson's Hall on Friday evening. The affair was notable for its large attendance

of prominent folks and the new residents of San Gabriel were assured of a warm welcome by the hosts in happy attendance at the gathering. Decorations were refreshingly attractive and an unusually excellent program was rendered. Mr. Brown was warmly congratulated on his acceptance of the work he will assume in the First Methodist Church and members and residents alike have joined in a most cordial reception for his home-coming.

The many friends of Mr. Gottfried Daken are according him a warm welcome home after another trip to San Francisco, where a happy visit was enjoyed at the exposition and various points of interest in the northern metropolis. The Daken home is one of the most hospitable in the vicinity and it is anticipated that there will be many happy gatherings there during the holiday season and festivities incident to Christmas.

One of the prettiest parties of the week was that given yesterday by Mr. and Mrs. N. A. Strain, complimenting their little daughter, Georgia, on her birthday. The decorations for the delightful occasion were entirely in pink and white, and the twelve little guests had a merry time enjoying relatives and looking after some business interests for a couple of weeks.

One of the most enjoyable of Thursday's dinners was that given by Mrs. J. E. Blair and Mrs. M. T. Durrell. The visitors enjoyed their stay here so much that in all probability they will return again and again.

court. The evening was spent at games around the friends. The guests were Mr. and Mrs. W. E. McConnell, Mr. and Mrs. Nelson King, Miss Adelaide Douglas, Miss Ada Robinson, Miss Rosalie Willey, Miss Florence Baker, Miss Mary Curtis and Messrs. W. B. Woy, Ed Curtis and Forrest Siah.

Invitations for the annual reunion of the Lorbeer family called together in this city Thanksgiving Day more than fifty branches of the family tree, which were arranged around the hospitable board of Mr. and Mrs. L. A. Lorbeer, at No. 375 East Third street. In preparation for the event a big room on the second floor of Mr. Lorbeer's new \$5000 garage was rigged up for a dining-room. It was prettily decorated for the affair.

Gardens.
MR. AND MRS. L. R. MAGEE of Van Ness avenue, Los Angeles, was a guest on Sunday, last, of Miss Sue Dawson.
Mrs. H. E. Howard of San Dimas, Miss Anna Elliston, Mrs. L. Forester and Mrs. F. E. Graham, enjoyed luncheon on Saturday last with Mrs. Fred Mady of Glendale.
Mr. Robert M. Teall is greatly enjoying a visit of a couple of months from his parents and sister, Mr. and Mrs. F. W. Teall, and Miss Bessie Teall of Sparks, Wis. They arrived just in time for Thanksgiving.

Members of the T-Bone Club who were at Camp Budy a week ago greatly enjoyed a breakfast of hot cakes and maple syrup, at the home of Mr. and Mrs. W. Herbert Wood, on Sunday morning, last. Mr. Wood added greatly to the fun by cooking the hot cakes, while J. S. Simpson furnished the syrup, it having come all the way from New York.

Orange.
AN EXCEEDINGLY enjoyable program followed the business meeting of the Fraternal Aid Union on last Friday evening. Mrs. E. J. Brown delighted not only with a piano number but accompanied Crockett Riley in his rendition of a sparkling solo on the mandolin. A reading of some of James Whitcomb Riley's poems brilliantly given by Mrs. A. D. Bishop, was followed with a novel chalk talk by Miss Mabel Parker, the chalk talk illustrating the origin of the Pilgrims and their journey over the Mayflower. This latter feature was particularly appropriate in view of the approach of Thanksgiving. Generous applause and encores were showered on those who took part in the programme and later the members of the social order sat down to a pleasing repast.

A large number of society people who are interested in basketball as played by the Orange Athletic Club accompanied the local team to Los Angeles on a recent Thursday evening. The party accompanying the players included Messrs. F. W. Parsons, Charles Young, Robert and Earl Phillips, Fred Hunt, Marvel Riggs, L. A. Stephenson, E. V. Pierce, Fred Hurt, Neil Granger, Kingsley Spurling, Otto Rosell, George Brandriff, Mr. and Mrs. J. P. Rowley, Mr. and Mrs. F. V. Lentz. They were highly delighted

with the success of the home players who made a clean sweep in their contest with the Los Angeles Athletic Club.
Mrs. Retha Mendenhall, formerly of Orange county where she was better known as Miss Retha Newlin, and who now lives at Smith Mountain in San Diego county, is visiting friends in Orange and other points in Orange county. Accompanied by her aunt, Mrs. R. L. Douglas of Anaheim, Mrs. Mendenhall spent the first of the week with Miss Cora McClung of El Modina, and friends in this city.

Mr. and Mrs. T. L. Larson and daughter and Mr. Larson's sister, Miss Larson of Madison, Wis., have been the house guests during the last week of the Herbert Wheelers. After being shown the delightful sections of Orange county the visitors left on Thursday for Fresno, where they will visit friends.

D. P. Campbell left on Friday for northern points, including San Francisco, Lindsay and Hayward. He will join his wife, who left here two weeks ago, at some point in the north, and the two will visit friends and relatives until after the Christmas season before returning to Orange.

A visitor from British Columbia is Mrs. W. J. Mannix, who is the house guest of her parents, Mr. and Mrs. E. J. Dowling of South Cypress street. The friends of the Dowlings are also enjoying the visit of this charming woman from across the northern border.

Culver City.
MISS GLADYS CAMPBELL, Miss Mae Gaskill and James Gaskill of Los Angeles, were weekend guests of Mr. and Mrs. Charles Shillito and their daughters. The week following the Bearfield ball has been an unusually interesting one, socially, so many out-of-town visitors attending that function, and several dinner

Actress Tells Secret
A Well Known Actress Tells How She Darkened Her Gray Hair and Promoted Its Growth With Simple Home Made Mixture.
Miss Blanche Rose, a well-known actress, who darkened her gray hair with a simple preparation which she mixed at home, in a recent interview at Chicago, Ill., made the following statement: "Any lady or gentleman can darken their gray hair and make it soft and glossy with this simple recipe, which they can mix at home. To a half pint of water add 1 oz. of bay rum, a small box of Barbo Compound, and ¼ oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until it becomes the required shade. This will make a gray-haired person look 20 years younger. It is also fine to promote the growth of hair, relieves itching and scalp humors and is excellent for dandruff and falling hair."

SOCIETY.

parties which included the Shillito's guests were on the week's calendar. Mr. and Mrs. E. H. Archer of Long Beach were dinner guests of Mr. and Mrs. E. G. McHugh last Sunday. The McHughs and their dear little baby spent Thanksgiving with Mr. McHugh's parents, Mr. and Mrs. C. B. McHugh of Van Nuys.

Mr. and Mrs. T. R. Jones of Los Angeles were the guests of their son, Dr. Robert Jones, and family, at their home on Main street, Thanksgiving Day.

Mrs. Louise Saint has returned to her home on Delmas Terrace after an

extended visit with her son, W. W. Saint, and family, of San Francisco and Oakland.

Miss Virginia Shields of Los Angeles was a Saturday-to-Monday guest of her cousin, Harry H. Cuiver, and his parents, at the former's palatial home.

Garden Grove.

A CHARMING home wedding was quietly celebrated Tuesday forenoon when Miss Helen Clara Dalton was married to Michael C. Foster of Los Angeles, at the home of the bride's parents, Mr. and Mrs. George J. Dalton of North Euclid avenue. Rev. William Thomas of the Baptist Church read the marriage lines. The bride was gowned in brown silk and carried a bouquet of lovely

roses. Ferns and roses were used in decoration of the house and the table, where a wedding feast was served before departure of the bride and groom for San Diego. At the conclusion of the honeymoon Mr. and Mrs. Foster will reside in Los Angeles. Those witnessing the wedding besides the family were Miss Florence Neff, Messrs. Frank Berdine, Herman Mueller and Joseph Natale.

A delightful concert was given under the auspices of the Lamda Phi on Friday evening last. Miss Lillian Melick of Pasadena was the principal attraction of the evening, playing three harp solos and giving two exquisite numbers, with Mrs. J. T. McElree as accompanist. Mr. Irvine German with violin and Miss Melick on the harp, gave two duets. An-

other attraction was the readings given by Mrs. E. M. Brown of Santa Ana. The concert was a spicy event and the program was greatly appreciated, as shown by the numerous encores. Miss German gave a brief talk as to the purpose of the club and the objects for which the money realized from the concert will be used.

A basket dinner at the Methodist Church last Thursday was one of the social events of the week that was particularly well attended and enjoyed. The ladies of the church united business with pleasure by making the event an every-member canvass, which proved to be entirely successful. The amount necessary for the year's expenses of the church being cleared. The ladies are rejoicing over

the splendid outcome of their hospitality.

A unique pre-Thanksgiving dinner was given at the Bean Association warehouse on Thursday noon, the employees of the association being the host. A particularly generous member of the force, Mr. Morris of Santa Ana, furnished all the turkey, and each of the others contributed generously towards making the holiday feast an abundant and appetizing one. The association enjoyed by those who had worked together during the busy harvesting season was pleasantly recalled as the merry guests sat around the table.

Prof. Stephen Pitts and his organized Sunday-school class of the Methodist Church were entertained at the home of Mr. and Mrs. George Ray-

burn on Tuesday evening. There were about twenty-five present of the Royal Helpers and the evening was merrily spent. One of the most mirth-provoking amusements of the evening was the taking of shadowgraphs, which were in some cases identified with great difficulty. Music, conversation and the serving of refreshments made up the interesting evening.

Santa Paula.

MEMBERS of the Eboli Club entertained the members of other federated clubs throughout the country Monday afternoon, the occasion being the visit to the country of Mrs. E. Dexter Knight, the State president of the federation. After a short musical program, contributed by Miss Irene Clark of Saticoy, Mrs. Arley Mott and Mr. Shively of Santa Paula and the choral section of the Oxnard Monday Club, Mrs. Knight gave a talk on federation work and interests. The Eboli ladies served tea and cake at the close of the afternoon.

H. Cumerina, one of the pioneers of this section, was the honor guest at a delightful surprise party arranged by the members of the Baptist Church here, with which he has long been prominently identified. The affair took place at his country home in Santa Paula Canyon. An informal program and felicitous speeches closed with the presentation of a handsome gift to Mr. Cumerina, and the refreshments were served during the afternoon.

Mrs. J. W. Greer was hostess at a beautifully-appointed luncheon Friday in honor of Mrs. Ralph Young of Colorado Springs. Possessing herself the true southern instincts of hospitality, Mrs. Greer took her guests back to Dixieland by the decorations, consisting of cotton bolls and amilies above the table and a centerpiece of a mirror like, a miniature daisy flitting from the steps of a tiny log hut, typical even to the coonskin hanging on its side. A realistic alligator was half hidden by the moss on the lake's edge. Hand-painted mean cards and place markers decorated with cotton bolls were other features of the decorations, and the delicious menu complemented many uncommon dishes that are favorites in the Sunny South. Covers were laid for eight.

Mrs. Leitha Owen was voted the prize for the prettiest masquerade costume at a delightful affair given by the members of the L.B.C. Club at the home of Mrs. Herman Keene Friday night. To Mrs. Lee Taylor for her quietness and to Miss Mary Anderson for her good nature prizes were also voted. The members met and donned their costumes at the home of Mrs. Charles Farrand, proceeding, masked, through the streets to Mrs. Keene's home, some distance away.

A basket social, with many new and entertaining features, was enjoyed Friday night by members of the Epworth League and their friends. The baskets being purchased after brisk bidding of bean seeds in made during the evening's merriment.

Members of the Wednesday Embroidery Club enjoyed a delightful afternoon with Mrs. Dean Teague on Wednesday when pretty holiday needlework engaged the guests and a delicious luncheon was served.

Reverend Father Martin presided at the ceremony. Only immediate members of the family and a few friends of the bride were present. The bride was becomingly attired in traveling costume. After a luncheon in Los Angeles, Mr. and Mrs. Knight expect to make a tour of America, visiting the great cities in Peru and Brazil, where they will reside in Los Angeles.

For Miss Dalton, before the marriage to William Henry Foster, Thursday, a surprise party was given by a number of her intimate friends, at the home of the bride's parents. The bride was given a large number of beautiful gifts, including many beautiful china, cut glass and silver. Miss Josephine Berdine, daughter of Mrs. George J. Dalton, was married to Michael C. Foster of Los Angeles, at the home of the bride's parents, Mr. and Mrs. George J. Dalton of North Euclid avenue. Rev. William Thomas of the Baptist Church read the marriage lines. The bride was gowned in brown silk and carried a bouquet of lovely

Just One Application and the Hair Vanish

(Toilet Talk)

Any woman can keep her skin free from unsightly hair or fuzz is she will follow these simple instructions: When hairy growths appear, apply a simple paste, made by mixing some water with powdered salicylic acid. Apply this to hairy surface and after 3 or 3 minutes rub off, wash the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.

A black and white line drawing of an interior scene. On the left is a large, ornate wingback chair. In the center is a tall, dark wooden cabinet with multiple drawers and a glass-fronted upper section. To the right of the cabinet, a woman in a light-colored, short-sleeved dress with a dark belt stands looking towards the right. Further right, another woman in a dark, long-sleeved dress stands with her hand on her hip, looking back towards the first woman. A small, patterned rug is on the floor in front of the chair. The background consists of a simple wall with a vertical line suggesting a doorway or window frame.

be musical numbers. The lecture will be free to the public.

First of a Series.

Ray Hastings, organist, assisted by George H. Bemus, bass soloist of Temple Baptist Church, will give an organ recital at the Broadway Christian Church, opposite the Courthouse, Tuesday evening. A splendid program has been arranged, and the public and friends of the participants and church are invited to attend. This will be the first of a series of musicales to be given during the coming winter season and it is hoped to make the entertainments popular and successful.

Debussy Lecture Recital.

Debussy was the theme of a lecture recital given Monday afternoon in the fine arts building of the State Normal School, by Ruth Dearford-Shaw, a young artist of marked ability. Among her numbers she included "Jardins sous la Pluie," "Clair de Lune," "La Soiree dans Grenade" and "Cathedral Englobée." Mrs. Shaw gained the sympathy and attention of her audience at the beginning, and held it throughout the programme, which was exceedingly well rendered. Her efforts were rewarded with enthusiastic applause.

Sacred Music Programme.

The monthly musical service, to which the public is invited, will be given at the Westlake M. E. Church (West Eighth and Burlington) this evening, at 7:30. Bibley G. Pease is organist and director. A quartette, composed of Mrs. Gail Mills Dimmitt, Mrs. Dora Hauck Cooper, Robert Russell and Frank E. Geiger, will be heard. The chorus numbers thirty members. The following programme will be given:

On Concert Tour.

Molly Byerly Wilson, dramatic contralto, who is on concert tour with the New York Metropolitan Concert Company, has filled nearly a dozen engagements to date in Illinois, Kansas and Iowa. Besides appearing in two ensembles with the company, Miss Wilson sings in costume a "Samson and Delilah" aria, also in the "Madame Butterfly" duet, and gives a group of songs in English. She is featuring "Destiny," by Frank H. Colby, among these.

At Arrowhead.

Informal concerts were given at Arrowhead Springs as a special treat to guests visiting the resort during the Thanksgiving holidays, by the following artists: Miss Mabel Gates, violinist; Miss Marjorie Hicks, pianist; and Mrs. John J. Ward, dramatic soprano.

MEN AND EVENTS.

The Rev. W. C. Green, a Methodist minister living in the Wesleyan community, near Chapman, Kan., is making the best corn shuckers in the community sit up and take notice. For recreation and diversion from his studies Mr. Green has been helping Earl Norman get his corn in the crib, and to the surprise of Mr. Norman and his neighbors, their minister husked 100 bushels in a day.

After having preached for sixty-four years the Rev. Henry Young, aged 84, delivered his last sermon at Oak Chapel, near Charleston, W. Va., last week. He is a Baptist, was ordained a minister at the age of 19, and it is estimated has preached 10,000 sermons, has married more than 1000 couples and has officiated at 500 funerals. He retired because his advanced age prevents him from filling circuit charges through the country.

Thomas Edison has constructed a

little voice mill which will work at bidding of the voice. If a mother fixes one to a cradle, the cradle will rock as the baby cries, and continue to do so in proportion to the outcry.

Thomas R. Shevlin, a Minneapolis lumberman, who took out \$500,000 of life insurance several years ago to protect his business interests, has increased his line by \$1,000,000, because of new enterprises in which he has engaged. It is reported that he plans to carry \$2,500,000 of insurance eventually.

L. D. Young of Bloomington, Ill., this year raised 188 bushels of corn on an acre of land.

Capt. O. L. Cogrove of Mystic, Ct., is soon to start on a world cruise in his thirty-foot motor-driven lifeboat cruiser Safety First. He will pass by way of the Hudson River and Erie Canal into the Great Lakes, through inland waters to the Gulf, and thence out upon the boundless seas, accompanied by his wife, a crew of two men and a motion-picture operator.

Married three times, Charles W. Chambers of Paterson, N. J., an evangelist, must be married a fourth time if he is to receive an estate valued at \$125,000, which is to come from an uncle in Scotland if he is the husband of an American girl. Chambers became a widower for the third time two and a half months ago. He is 45 years old and says he does not expect any trouble in finding another bride.

Prof. Alexander Joseph Hare, who was honored recently in connection with the celebration of the fortieth anniversary of the foundation of the Tokyo Higher Commercial School, is the oldest foreign instructor in the institution, and probably the oldest in Japan. He was educated in England, Germany, and France, and has lived in Japan continuously since 1865. For fully thirty-seven years he has been with the school mentioned above, and has long held the blue ribbon among foreign teachers in Japan. Being over seventy and never married, he lives a retired life in the suburbs of Tokyo.

Tuberculosis' Worst Enemy

is a right combination of fresh air, pure food, rest and clean living. All doctors agree these are prime requisites in the treatment of this disease, which causes one-tenth of all deaths. Yet doctors know modification is needed in many cases. Under such circumstances, Eckman's Alternative may prove beneficial. When used as an adjunct to proper care and hygienic living, it is most efficacious. We know of many cases in which it has brought lasting relief. In any event, a trial can do no harm, for this preparation contains no poisonous or habit-forming drugs—no narcotics, opiates or coal-tar derivatives.

BEAUTY CHATS.

CONCERNING EYES.

Some little time ago the question of bathing the eyes was considered in this space, more as a question of health than beauty. Madame G.'s letter, which is printed below, leads me to take up again the question of beautifying the eyes. Madame G. complains that her eyes, once the charm of her girlhood, have become embedded in fat, have lost their expression, and from a joy have become a source of worry.

As the eye is the source of a woman's power, more care should be taken of it than even of the complexion. The eye is the keynote of temperament, every emotion is radiated through it—unless it has become surrounded with fat, or otherwise overshadowed by the results of wrong physical habits. Madame G.'s best treatment for her eyes is to reduce the flesh from her whole body—about the eye, that hides and dims it, will disappear as her figure resumes its normal proportions. Moreover, the diet and the exercise she will have to take will stir her mind as well as her body, and will bring back the glow and sparkle that once made her eyes so expressive. And as the flesh leaves the face and disappears from about the eyes they will apparently grow larger. It is only then, of course, that their full size will be seen.

For the brilliant eyebrows, if Madame G. will run a fine toothbrush over her brows each night, the brush wet with fresh muckilage, she will find in a short time that the brows have trained themselves to lie flat and in the proper curve. Also, the coarse and curly hairs will drop out, leaving the finer ones to form the arch above the eye.

In the morning, of course, the muckilage is washed off with hot water, and perhaps a drop of olive oil is rubbed into each eyebrow. This stimulates the growth of the finer hairs.

QUESTIONS AND ANSWERS.

Pardon a long letter, but I want to ask what to do about my eyes. When I was a young girl—I am now nearly 45—my eyes were large and dark and beautiful, but in past years they have gotten surrounded by layers of fat that make them look lifeless and ugly. Besides, they don't seem as large as they were, nor as clear, and the eyebrows have grown coarse and brittle. Sometimes I comb them, but they get matted up right away. (Madame G.)

Soldier in activity.

Reproduced from "A Mechanistic View of War and Peace," by Dr. George W. Crile (The Macmillan Company), showing the physiognomy of the soldier compared with that of the brute illustrates well the fact that war is in truth a "Fling Back in Phylogeny."

who is permitted to alter or strike out any word or whole sentence or even a paragraph; also to add and change as he pleases.

At the more recent dinners of the Gridironists Mr. Bryan was given the most attention. There was something prophetic in the fact which showed a cabinet meeting with one club member made up to resemble Mr. Wilson and all the others made up to resemble Mr. Bryan.

While Mr. Roosevelt was President he was the major theme of the dinner's travels; and it is recorded that he took the fun in good part, except when directly criticizing his administration. Both Mr. Taft and Mr. Roosevelt, when it came either's turn to speak, always hit back at the club good-naturedly and with wit. But at the dinner which Mr. Wilson attended he spoke and wholly ignored the shafts addressed at him and his administration.

It is something of a loss to see that the club's rule of secrecy has largely overshadowed Mr. Dunn's "Gridiron Nights," for it is perfectly plain that he hasn't begun to tell the whole story. But what discretion has allowed him to make public fills a large book.

A NEW ENGLAND TOWN.

OLD CONCORD. By Allen French. With Drawings by Lester G. Hornby. Little, Brown & Co.

MR. FRENCH reviews the literary and military associations of Concord, touching on historical incidents that have contributed to the fame of the old New England town.

Emerson, Hawthorne, Thoreau, the Alcotts are the more illustrious names on the literary roster of Concord; and something of their friendships, their habits and places of residence is related with the easy, dignified informality that always makes books of this kind so interesting.

Concord has a place of importance in colonial history; and Mr. French has recorded the ruses and preparations of the Minute Men in their determination to defeat the Tories and Redcoats.

And as though the historical and literary prominence were not distinction enough for any town, even so old as Concord, it is pointed out that the town gave its name to the most luscious of grapes which first attested the excellence in a Concord garden.

A FRENCH PROPHECY.

THE INEVITABLE WAR. By Francis Deland. Little, Brown & Co.

IN 1911 appeared at Paris a pamphlet entitled "La Guerre qui vient" which is now translated as "The Inevitable War," wherein it was predicted that, because England felt herself beaten in the industrial war and Germany was being encircled with a system of "ententes and alliances" that threatened her with isolation, war was predestined.

A striking prophetic paragraph declares that the tension will increase, the French public will be aroused by the idea of German peril, the telegraph lines will be cut, the objective point of the corps is Antwerp; they will only say it is marching toward the French frontier.

Of course, the prophet erred in his details, but he seems to have foreseen clearly the predominant features irresistibly forcing the nations into a general war.

MUSICAL DISCUSSION.

PIANO MASTERY. By Harriette Brower. Frederick A. Stokes Company.

IT IS evident that the opinions of doctors in the realm of music are quite as frequently inclined not to coincide as those of their medical brethren. There are a great variety of views expressed in the thirty-two chapters of this book, written by Harriette Brower, one of the most recent contributors to literature on the most popular of instruments.

Yet, in the end, the writer manages to synthesize very complete and logical schemes of hints for the development of pianistic talent which, by virtue of the large number of sources from which the conclusions are drawn, are of unmistakable value to teacher and student alike. The book is one that is essentially designed for these.

Herself a musician, Miss Brower shows a thorough comprehension of the nature of the technical problems which face the pupil of the piano. The book is, she states, an outgrowth of her own experience with these difficulties, and her endeavor to find a solution through a well-worked-out constructive theory based on a symposium of opinions cannot be regarded otherwise than as highly commendable.

One misses extended interviews with Godowsky, De Buschmann, Hoffman and Rosenthal in the work, although the ideas of some of them are mentioned—and also a personal one with Paderewski, the Polish artist being treated through secondary sources. A few chapters in the work evidence the inability of the writer to penetrate the reserve of certain artists concerning their own achievements and theories, such as the one with Busoni.

The subject matter is treated very entertainingly on the whole, although the interviews are handled in a sort of rough newspaper style, probably the result of their having originally been written for one of the weekly musical journals.—(E. S.)

BLOODLESS CONFLICTS AND OTHERS.

AMERICAN DIPLOMACY. By Carl Russell Fish. Henry Holt & Co., New York.

IT IS FASHIONABLE cynicism to refer contemptuously to American diplomacy. But the unembellished recital made by Carl Russell Fish, professor of history in the University of Wisconsin, in "American Diplomacy" shows that while our nation has treated diplomacy largely as one of the superfluous luxuries of government, yet from the colonial days to the present, individual diplomats have done admirable work.

Following the records made in this an-

ART AND ARTISTS.

BY ANTONY ANDERSON.

From "Eudymon."

And as I sat, over the light blue hills

There came a noise of revelers; the hills

Into the wide stream came of purple hue—

Two Bacchus and his crew!

The earnest trumpet spoke, and silver thrills

From kissing cymbals made a merry din—

Two Bacchus and his kin!

Like to a moving vintage down they came,

Crowned with green leaves, and faces

All on flame.

All madly dancing through the pleasant valley,

To scare thee, melancholy!

O then, O then, thou wast a simple man!

And I forgot thee, as the berries

By shepherds is forgotten, when, in June,

Tall chestnuts keep away the sun and moon—

I rushed into the folly!

—[Keats.]

Picture That Travel.

In a recent discussion with a

literary friend, in which he spoke of

a parable he had written on the human

need of beauty, and in which he

pointed out that without beauty—of

thought, of morals and of surround-

ings—the race would at once revert

to the lowest forms of savagery, the

conviction came not to be untrue that

the endless search for the ideal, or

that harmony which is beauty, is the

beginning and the end of all evolu-

tionary progress. My friend agreed

that this is undoubtedly true.

All life, then, is an art that must

be practiced unrelentingly if it is not

to become something poor, cheap and

meaningless. Self-expression is a ne-

cessity of growth, and all attempts at

it should be encouraged. In its blind-

ness humanity has not always seen

this, but has been prone to thwart

the efforts of the artists, who are the

true leaders in life—the prophets who

chant of eternal beauty. By "artists,"

of course, I mean poets, painters,

preachers, sculptors, musicians.

Artists have ever been awake to

their high mission. They have al-

ways taken their work seriously, de-

siring the flesh that the spirit might

live. Starved and scorned, mocked and

deserted, they have never given up the

struggle. What a stupendous task has

been theirs—and how much more stu-

pendous it will be when the great war

is over.

The presence of the heaven of beauty

is not always felt by those whom it

benefits, but it is there, working

quietly and effectively. We do not

realize what the artists of Los Angeles

have done for Southern California,

what they are doing today, and what

they will do. The influence of the

California Art Club may seem neg-

ligible to most of us, but we may

change our opinion if we stop to re-

member all the good pictures, and all

sculptures it has produced for us. Its

latest venture, the traveling exhibition

of pictures, will be even more far-

reaching in its effects on the taste

and culture of the Southwest.

Over fifty pictures have been gath-

ered together, to be shown in clubs,

schools and public library buildings.

Miss Alma May Cook travels with the

pictures, and gives talks on the paint-

ings and their makers. When desired,

she also provides colored slides of the

paintings.

The traveling show has already be-

gun its itinerary, opening this week in

the Vernon branch of the Los Angeles

public library. The success of the

venture was phenomenal. Announce-

ments of the exhibition were given in

the public schools of the neighbor-

hood, in the women's clubs, and even

in the churches, and hundreds of men,

women and children, all eager and in-

terested, came to see the pictures on

the all too brief exhibition days. Mem-

bers of the South Side branch of the

Elbel Club acted as hostesses, and Miss

Cook gave her little critical talks every

afternoon. Does not all this declare

the need for beauty?

The Vernon library is a beautiful

and spacious building, Central av-

enue near Forty-fifth street. It pro-

vided ample wall space in a lower

room, and the pictures were well

lighted. The artists themselves have

responded with hearty good will (trust

artists for that!) to the call for can-

vases, sending in work of excellent

quality, work calculated to bring forth

the standard of beauty.

I cannot, of course, mention all the

pictures in the traveling exhibition,

but I feel impelled to speak briefly

of a few that attracted me particu-

larly.

"April Days," "Mt. Tahomea" and "The

Headland," by Maurice Braun's, "The

Mountain" has the true feeling of

Southern California, and is technically

a masterpiece. Harry Lewis

Bailey brings us to St. Louis in "Team-

ing on Eads Bridge," truck horses full

of action.

If the traveling exhibition of the

California Art Club comes within mail-

ing distance I would advise you to go

and see it. You will not be disap-

pointed.

Peacock Plumes.

Plumes of the peacock—the Chinese

emblem of beauty and honor—make

an iridescent background to many of

the water color paintings which Miss

Hunt brings us to St. Louis in "Team-

ing on Eads Bridge," truck horses full

of action.

Miss Hunt spent many months in

San Francisco, painting the picture-

types of Chinese so dear to her ar-

tistic soul. Many of these little ma-

de from Manchuria were difficult to

procure as models, for even in such an

open down as San Francisco, the

Chinese women and girls are almost

kept at home with oriental strictness.

However, the missionaries came to the

artist's rescue, and their open seam-

suits seldom vouchsafed to "foreign

devils." In this way, and in this alone,

did she find some of the rarest of her

little models.

A VISIT WITH RILEY.

I've been down to see Jim Riley as I've always wanted to.

I walked right up to the old front door and someone let us through:

You've maybe heard of Lockie—It's noted and to spare.

It's not much of a street perhaps, but, well—Jim Riley's there.

Found Jim a-settin' by the fire, right close beside the grate.

Been out a-drivin' in his car—some car, too, I may state:

Walked right up and shook hands with him, like old friends might:

You know;

Pulled my big chair up to the fire and heard him say, "Hello."

Well, then I passed the time o' day, and Jim, he talked some, too.

Of fellows that we used to know, the same as me and you;

Of Bob Burdette and folks like him—you know 'em, I expect.

The class of folks I sort o' think must be the Lord's elect.

And sometimes Jim 'd smile a bit at somethin' he'd recall.

And sometimes, well, I thought a tear was gittin' ripe to fall:

'Twas gittin' sort o' dark outside, and things got kind o' blurred.

So we just set and set awhile and didn't say a word.

And then the strangest, queerest thing! I thought I saw them there.

The folks the children love so well, all standin' 'round his chair:

First Little Orphan Annie came and stood beside of Jim,

With great big eyes so full of love that shined right down on him.

She wasn't scared a bit, I guess—just seemed to want to be

Where she could watch some over him—and pretty soon I see

A little boy stand by her side, by Jim's chair, close to mine,

Got cured by Jim somehow I guess of curv'ure of the spine.

And then I see Aunt Mary come from somewhere, I don't know,

Walked right up back of where Jim sat, so quiet like and slow

I hardly heard her step at all—and lay a lovin' hand

On Jim's gray hair, like he's a boy in Broad-and-Sugar Land.

Say—I could smell the roses there that used to bloom and climb

Along about knee-deep in June in some old summer time;

Somewhere near where Aunt Mary lived, and Jim I guess he see

A lot of things back there that wasn't quite as plain to me.

And I see someone standin' there, a girl, and I surmise

Perhaps some old sweetheart of his, from lookin' in her eyes:

I sort o' wonderd who she was, and where she might be now.

You know how fancy kind o' runs in times like that somehow.

And then I got to wonderin' if Jim 'd ever know

The blessin' of those simple folks in all this world o' show

And sham sometimes, and how about a dozen times a year

Folks like to open up a book and bring 'em kind o' near.

Well, maybe not; I can't just say. But, anyhow, I do.

And now the light was dim outside and thicker shadows grew.

The faces sort o' faded out—I looked beside the chair.

But everyone of 'em was gone, and just Jim settin' there.

I got a chokin' in my throat—I always do sometimes

When I meet good and human folks, in real life or in rhyme.

And then I said, a-lookin' there to where Jim Riley was:

'Good-by, Jim—take good keer yerself.' And, Lord, I hope he does!

POLITICIANS, STATESMEN.

Former United States Senator Joseph

thrown a big scare into the Senator,

he would even now be planning his

**PROPERTY OWNERS
FAVOR OPEN CUT**

A movement for an open cut from Dunker Hill from north of First street to south of Second street with the hearty approval of nearly all the property holders in the district which will be effected.

The plan was first conceived practically as the more expensive and efficient method of providing a way through the city from the east end of the downtown section to the western limits of the city.

Information has been conducted by the Business Men's Club Incorporated Association at No. 308 Hill street is doing yeoman work in acquainting the general public with the merits of the open cut. Herney, in charge of the project, is very enthusiastic because he feels that he is obtaining co-operation from the people who have learned the value of the whole city of the contemplated project.

"I do not believe a single proposed improvement suggested for Los Angeles has aroused such intense interest among citizens as the open cut project," Mr. Herney said yesterday. "When I suggested some time ago about cutting through the northern portion of the business from the apartment-house district to the open cut and street, should be cut down led through to give a new outlet to the congestion of traffic."

Tunnel idea was the one favored.

However, sentiment has changed since then, and now it would appear that for the improvement they will get the most for their money if they adopt the open cut.

One of the finest residence districts in the entire city lies along the creek could fly, exactly the same as the old city bounded by First and Third streets.

At present there is no way for a person can go directly across the city without inconvenience whatsoever, said business district to the west side of the city.

The only way a person can cross the city is to go to the Sixth or Seventh streets, take a car, and make a heavy loss of time.

An open cut completed the same distance in reaching the limits of the city would be to fifteen minutes, not to the benefit to property owners, but to the relief of congestion in the district.

**NATIONAL DEFENSE LEAGUE
IS ORGANIZED.**

JAMES BIG COMMITTEE
FOR PEACE.

Request of Mayor Sebastian the City Council granted for the use of the Council next Tuesday evening for of the Los Angeles committee National Security League.

The organization was organized by Mayor Sebastian at the request of the national organization, committee yesterday announced appointment of a committee of 400, which will encourage sentiment in favor of preparedness as the logical outcome of peace.

The speaker will be selected Tuesday.

Purpose of the league is to initiate measures for defense against war—not wars of aggression—those of defense.

Dinner given by the League has been named by Society as "Defense Day" the United States—the occasion for holding dinner and addressing letters and to Congress on behalf of national defense.

In connection with the occasion one, the American Defense Society has requested the committee the Mayors of the various cities to designate a flag day over the city, on which day all citizens in favor of a greater defense are invited to show belief by hanging out city house.

Name time the American Society contributing a card designed by voters and elected Congressmen and urging action at the next election in favor of adoption of defense. Cards may be obtained at the national headquarters the American Defense Society fifth avenue, New York

LEASING EXTENDED

Contract between the city and normal Hill Company, the Finance Committee, by the Council yesterday afternoon, after paying the amount of \$100,000 each year next week, this amount distributed over four years, \$25,000 each year.

The city agreed to buy the property the contract number organized to handle provide for payments of \$1913, \$190,000 in 1914 and December 1, 1915.

Under the contract the city will pay \$100,000 per year in December, 1916, and in 1917 and 1918, with the balance of the entire sum payable either by bond or loan.

In the meantime the city pays 5 per cent interest on the entire sum.
